

Next, they will chat with me and ask me questions about my life. I can ask questions too.

I might do some activities with pictures. There will also be interesting things for me to look at.

Once we have finished we will say goodbye & I can go back home or back to school.

Please note: This leaflet only gives general information. You must always discuss the individual treatment of your child with the appropriate member of staff.

Do not rely on this leaflet alone for information about your child's treatment.

My Individual Speech &
Language Therapy
Appointment

I am going to visit Alder Hey Hospital. I might walk, take the bus, take a taxi or go in the car.

When I get to Alder Hey, I will wait in a room that looks like this. There will be things to do so I don't get bored.

Me and the adult I came with will then go into a room that might look like this:

I will know I am in the right place because the building will look like this:

I will know it's my turn because a speech therapist will call my name & say hello.

First the speech therapist might talk to the adult that brought me.

I will see a speech and language therapist. Their job is to chat and learn about young people like me.

I can play, draw or read when the adults speak.
