Alder Hey Children's NHS NHS Foundation Trust

### **Patient Story**

The Board welcomed mum Laura to share both her experience at Alder Hey and that of her daughter Isabel. At two years old Isabel was diagnosed with a tumour and a rare genetic syndrome. This can cause many issues including learning difficulties. Isabel is very anxious when coming to Alder Hey for her appointments. Isabel was assigned to Play Specialist Lorna and with her support has been making progress.

Laura described some communications issues relating to the management of one of Isabel's scans which had led to Isabel becoming very distressed. Going forward Laura said she would like to see a change in the process, possibly by adding a flag to a case note cover so that medical staff can clearly see when a patient has specific needs. Hilda Gwilliams described a Trust project into which Laura would be able to feed her experiences to help make improvements.

The Board thanked Laura for taking her time to share her experience with the Board as it is extremely valuable.

## 17/18/75 Declarations of Interest

None declared.

### 17/18/76 Minutes of the previous meetings held on 25<sup>th</sup> May 2017 **Resolved:**

The Board received and approved the minutes from the meeting held on 25<sup>th</sup> May 2017.

### 17/18/77 Matters Arising and Action Log Global Digital Exemplar (GDE)

The GDE funding had now been confirmed. The first tranche of £2.5m would be received this month with the second tranche being received in September.

A key part of the GDE Programme is to share learning and experiences with other organisations. After going through a selection process Clatterbridge Cancer Centre is to be its 'fast follower' as the same core EPR (Meditech) system is used and similar challenges face both specialist trusts.

### 17/18/78 Key Issues/Reflections

David Powell reported on two pieces of international design projects that were due to commence in Xi'an Fengdong, China New Town Hospital and Jersey over the next couple of months.

A small team from Alder Hey are currently in Dubai to start phase two of the partnership working with Al Jalila Children's Hospital.

### 17/18/79 External Environment/STP/Progress against Strategic Themes **NHS 5 Year Forward View progress**

Focus remained on implementing the Five Year Forward View. To support this a number of changes to the leadership structure had been made. Andrew Gibson has been appointed and commenced as the Executive Chair for STP. Andrew is meeting with Chairs and Chief Executives tomorrow to agree a governance structure.

Louise Shepherd formally reported her decision to step down as STP Lead for Cheshire and Merseyside.

### Liverpool Community Health Services

Louise Shepherd thanked the Executive team for their support in delivering the management contract for LCH to date and the difference that had been made since starting in May 2017; this included having an agreed Control Total with NHS Improvement (NHSI). Going forward, focus would remain on engaging with staff.

NHSI have confirmed that a new bidding process for LCH services will be announced shortly. Due to this it was likely that the Alder Hey Board would continue to manage the services longer than the agreed six months.

The first Liverpool Integrated Partnership System group including Chairs and Chief Executives in the region met last Monday and agreed five workstreams going forward.

### **Neonatal Network**

The first meeting to review proposals for a single site service was due to be held this week with attendees from Alder Hey. A business case was due to be agreed and submitted by October 2017.

### Liverpool Women's NHS Foundation Trust

The outcome of the North West Clinical Senate independent review was due to be received on Thursday 20<sup>th</sup> July 2017. Following this, public consultation would commence. The Board noted resource availability should be agreed before public consultation.

### **Tier 4 CAMHS Cheshire and Merseyside Bid**

Alder Hey is attending a CAMHS Tier 4 event hosted by NHS England Specialised Commissioning on 19<sup>th</sup> July which will clarify the new service standards and specification ahead of the official procurement process. In order to meet the new standards it is expected that the Dewi Jones facility would have to be relocated on a site with access to mainstream acute or mental health services.

### 17/18/80 Proposed Free School Plans

The Chair welcomed Mark Hilton, Head Teacher, Springfield Park School and Wendy Henshaw, Head of Alder Centre for Education to the Board.

Currently the Alder Centre for Education (ACE) provides part time education for secondary school children with a range of mental health problems. The proposal is to build an Alder School providing full time education on Alder Hey's Children's Hospital site. Mark Hilton and Wendy Henshaw advised there is currently no School that provides education for children with mental health problems and how the need for this is growing year on year.

An application for the school is currently being developed. ACE/Sandfield School is waiting for confirmation when the application can be submitted.

As well as providing full time education, the curriculum would include also provide: health appointments, therapies and social activities. The provision would also be extended to Sefton and Knowsley.

### **Resolved:**

- a) The Board thanked Mark and Wendy for their presentation and supported the proposal.
- b) Louise Shepherd and Steve Igoe agreed to be the Board representatives for the Alder School going forward.

### 17/18/81 Serious Incidents Report

Hilda Gwilliams presented the report for March 2017. There had been one new SIRI reported, four ongoing and two closed. Of the four ongoing two had been slightly delayed.

### Resolved

The Board received the Serious Incident Report for May noting:

• One new SIRI, four ongoing and two closed. There had been no new safeguarding incident reported, one ongoing and none closed.

## 17/18/82 Clinical Quality Assurance Committee: Chair's Update CQAC Minutes 17<sup>th</sup> May 2017

### **Resolved:**

The Board received and noted the approved minutes from the CQAC meeting held on 17<sup>th</sup> May 2017.

The Board received a verbal update on progress with the implementation of the Sepsis improvement programme; all relevant staff had now received the training package and audits of practice were continuing.

### 17/18/83 Alder Hey in the Park Estates Review

David Powell gave a presentation on projects agreed, projects in scope and projects on the horizon.

Eight projects are included within the community cluster and would be discussed further at the Executive Team meeting on Thursday. Plans for the community cluster originally included a corporate office building. It had now become apparent that leasing offices may be a lower financial cost and would have other benefits including less car parking on site; this was currently being evaluated. Sue Brown is starting to have discussions with those staff that this would affect.

Step had included plans to build a nursery on site. There would be enough spaces for staff as well as families in the community.

### Alder Centre

The Chair welcomed Sue Brown and David Houghton to the meeting.

A competition to build a new Alder Centre for Bereavement services had been completed. David Houghton summarised the five shortlisted finalists and

reported that the winner of the bid was Alford Hall Monaghan Norris. This company had been selected as each of the consulting rooms had its own garden and there was potential to expand the building if required in the future. The building would also use some of the bricks from the old hospital. The company had also offered a 50% discount.

### Resolved:

Board received the latest position on the Estates review and the Alder Centre.

### 17/18/84 Innovation

The Chair welcomed Jason Taylor, Tricia Roberts, Rachel Lea and Iain Hennessey (via Skype) to the Board meeting.

Jason Taylor gave a presentation on the selection process of projects within the Innovation Hub. Current projects included Acorn, a project to identify entrepreneurs, an hours app developed to support Junior Doctors with remaining within their contracted hours and Bloom to support nurses with revalidation.

An update from the recent Hackathon event was received; 22 groups pitched ideas, some of which may find applications going forward for different projects.

lain Hennessey joined the meeting virtually and reported on the joint work in progress with Cadburys; children who are receiving chemotherapy treatments lose their taste buds during this period. Cadburys are looking to design chocolate with spices in so that children will be able to taste chocolate again. Iain noted that a lot of children receiving treatment are underweight so this will also help with increasing calorie intake.

lain also reported that Tangle Teezer are developing a brush to dry hair without a hairdryer.

Tricia Roberts updated the Board on the Alder Hey App that has been developed between Alder Hey and the Charity to enable a personalised interaction between Alder Hey and the user/patient to enhance the experience of care.

The app is being developed by Ustwo and will be launched internally on 28<sup>th</sup> July. The full launch of the app is due to take place in October.

### **Resolved:**

The Board received an update on Innovation and agreed a further update would be received at the October Board meeting.

### 17/18/85 Infection, Prevention and Control Annual Report

The Chair welcomed Dr Richard Cooke and Val Weston to present the annual report.

Richard Cooke went through areas of excellence and areas to be picked up through the action plan. To support Alder Hey in reducing infections through hand hygiene an application had been developed titled iScrub. A process to ensure sure all staff who handle lines have received the latest training is currently in progress.

The Chair noted that as Richard Cooke was retiring this would be his last Board meeting and thanked Richard for his support over the years.

### **Resolved Board:**

- a) Received 2016/17 Annual report.
- b) Noted Dr Richard Cooke's retirement next month and wished him well.

### 17/18/86 People Strategy update

Melissa Swindell presented the May report. Discussions on ways to encourage staff to complete the annual staff survey had commenced. The Board discussed the low response rates received previously and how this can be improved. It was agreed that each team needed to have an action plan on improving responses.

Claire Dove noted low attendance of senior managers at the Workforce and Organisational Development Committee querying if senior managers regularly attended whether this would see a difference in the responses. WOD had recently been focussing on staff leadership, an update on the benefits of this was requested.

### Action: MS

Joe Gibson questioned if all managers are able and comfortable communicating the need for staff to complete the staff survey. Sian Falder advised that she was uncertain that the staff survey was discussed at all team meetings across the organisation.

The Board agreed LiA needed to link in with workstreams under Programme Assurance and internal communications needed work. Melissa Swindell and Joe Gibson agreed to review internal communications mechanisms ahead of the arrival of the new Communications Director later in July. **Action: MS & JG** 

The Chair asked the Board to have further discussions on the staff survey and internal communications.

### **Resolved Board Received:**

- a) The May report noting actions in place to improve internal communication and response rates to the annual staff survey.
- b) Workforce and Organisational Development approved minutes from the meeting held on 19<sup>th</sup> April 2017.
- c) Workforce and Organisational Development Annual report 2016/17.

### 17/18/87 Listening into Action

The Chair welcomed Kerry Turner, Katie Piggott and Sharon Charlton to the Board meeting.

Kerry Turner presented plans and actions in place for year two of LiA. This included the revised Executive Visibility programme; blogs from the visits are available on the intranet.

The fourth Big Conversation was held yesterday. The next two Big Conversations are to take place on 12<sup>th</sup> and 19<sup>th</sup> July, the Board was asked to encourage their teams to attend and get involved.

### After Trauma Day

Katie and Sharon reported on their idea to host an 'After Trauma' day for staff and patients to meet after the incident and discuss their experiences. The unique event was held on Saturday 6<sup>th</sup> May; out of the 200 hundred people invited over 60 people attended. The day included a tour of the hospital trauma pathway with clinicians in each area available to answer the participants' questions.

Whilst the first event had been really successful, further support going forward would be required from the communications team on a Saturday, further reliance on staff good will and securing funding. Jo Williams requested Non-Executive Directors are informed as if they are able to they would be willing to support future events.

To publicise the benefits from the day Katie and Sharon would be presenting at the next team brief and posters would be on display.

### **Resolved:**

The Board received an update on year two of LiA and the After Trauma event.

### 17/18/88 Programme Assurance Update

Joe Gibson went through the changes to the overall Programme Assurance Framework following the review. The Global Digital Exemplar Board had met for the first time last week, chaired by the Medical Director.

A review of the steering groups to ensure they are getting through the actions required was to take place next week.

John Grinnell reported on the Top 20 action plan that had been received at the RABD meeting last week. The action plan was currently showing opportunities for £2.5m. It was agreed an update on the action plan would be received at the September Board meeting.

### Resolved:

The Board received the Programme Assurance update and agreed with the approach.

### 17//18/89 Corporate Report

The Board received the report for May 2017.

### Performance

All targets for the month had been met.

A CAMHS patient had made a choice to stay in the Section 136 Place of Safety room in A&E as there was no CAMHS bed available within the region at that time. As the patient had stayed in A&E for over 20 hours this had been recorded as a breach, although this had been challenged because it was the patient's choice to do this, rather than accept a bed within the main hospital.

Page **7** of **9** 

Alder Hey Children's NHS Foundation Trust

### Finance

For the month of May the Trust's year to date deficit of £2.35m which is still £0.3m behind plan.

Income is ahead of plan by £1.0m for the month. The main over-performing areas were non-electives by £0.4m, drugs that are rechargeable to commissioners by £0.2m, and excess bed days by £0.3m (due to the discharge of a very long stay patient). This was offset by elective under performance of £0.3m. Pay budgets are overspent for the month due to higher temporary staffing costs. John Grinnell and Melissa Swindell have set up a task and finish group to review this.

The Trust has improved on CIP this month, over performing by £0.1m to bring CIP back on target for the year. Cash in bank is £5.2m, ahead of plan. The NHSI Use of Resources Risk Rating of 3 remains in line with plan.

### Patient Safety

Year to date, there have been 158 clinical incidents associated with harm reported. This is significantly higher than last year, however only four of these resulted in moderate harm or above, which is below the target of nine. This reflects the continued open culture of reporting incidents whilst evidencing a reduction in serious harm.

### **Patient Experiences**

There has been a decrease in the number of inpatients that would recommend the Trust. Other areas that require improvement are availability of play resource and knowing planned date of discharge. This will be shared with ward managers.

### **Clinical Effectiveness**

There were three recorded hospital acquired infections in May, giving a year to date total of nine, which is ahead of the threshold of 14 and a significant improvement on last year.

### **Resolved:**

The Board received the Corporate Report for Month 2.

### 17/18/90 Board Assurance Framework Resolved:

The Board received the content of the BAF, noting the actions taken in the previous month to manage the strategic risks identified. Executive leads would continue to keep the risk scores under review.

### 17/18/91 Resource and Business Development Committee Resolved:

The Board received the approved minutes from the held on 6<sup>th</sup> June 2017.

A verbal update was given on the meeting held last week, in particular a lengthy discussion on ensuring Alder Hey is capturing all revenue. John Grinnell advised that a piece of work had been carried out after the meeting and confirmed all revenue is being captured however a further piece of work is in place to ensure the revenue is being matched to the correct codes.

# 17/18/92 Audit Committee Chair's update Resolved:

The Board received the approved minutes from the meeting held on 28<sup>th</sup> April 2017.

A tender process for external auditor services was taking place on Thursday.

NHS Protect would be commencing an inspection of the Trust's counter fraud activities on 9<sup>th</sup> and 10<sup>th</sup> August 2017.

### 17/18/93 Integrated Governance Committee Annual Report 2016/17 Resolved:

The Board received the IGC Annual report.

#### 17/18/94 Any Other Business Debbie Herring

On behalf of the Board the Chair thanked Debbie Herring for her support during her role and wished her well in her new post.

# Date and Time of next meeting: Tuesday 5<sup>th</sup> September 2017, at 1:30pm, Large Meeting Room, Institute in the park.

### Briefing Paper – CAMHS Tier Four Services

### 1. Background

*Tier 4 (Specialised CAMHS) services* include day and inpatient services for children and young people with the most complex mental health conditions. Within the inpatient element of CAMHS Tier 4 there are several different types of service including adolescent, eating disorder, Learning disability, children's and low secure units. Alder Hey is commissioned to provide an inpatient service (7 beds) for children aged between 5-13 years at the Dewi Jones Unit (DJU).

The DJU is based in a facility away from the main hospital site and the Community Division is developing a case for change which would support the development of a purpose built facility within the Alder Hey Campus.

### 2. Dewi Jones Unit

Alder Hey's Dewi Jones Unit provides specialist tertiary (Tier 4) mental health assessment and treatment for children from the age of 5 to young people up to their 14th birthday. The Unit has been established in Liverpool for 35 years and is just one of five inpatient facilities in England providing expert assessment and treatment for children with complex mental health disorders. As part of a specialist paediatric trust the unit has access to all medical speciality services.

The Dewi Jones Unit (DJU) offers tailored packages of care to reflect an individual child's needs; either as an inpatient, day patient or outpatient. This includes delivering step-up and step-down care as part of a holistic bio-psychological approach.

The DJU is located at Alder Park in Waterloo. Although the unit has adequate space to deliver the service, the environment is not up to the standard required to deliver high quality care. The recent QNIC review highlighted a number of concerns about the unit from an environmental perspective:

Extract from April 2017 QNIC review of Dewi Jones Unit:

### Environment and Facilities

- The Dewi is located in a standalone building a long way from the hospital site. There are no other services (CAMHS or adult, inpatient or outpatient) located on the site. This means the unit is isolated and, in the view of the reviewing team, very vulnerable especially given the complexity and challenges posed by some of the young people that Dewi cares for
- The unit itself is spread over two floors meaning that higher than predictable levels of staffing are needed to guide children between areas, up and downstairs in particular

- Parts of the building are in need of updating and repair one of the uncertainties is where Dewi will be in the foreseeable future, meaning that decisions whether to invest in repairs are not straightforward. When the decision is made to repair, delays in response times from facilities add to the difficulties
- The sensory garden and the vegetable garden really impressed the reviewers, but there was a real lack of free running around space. Dewi look after boys and girls in the younger age group often with complex neurodevelopmental problems, the need for safe space to run off steam was unmet and in the opinion of the team needed to be factored into any move

The QNIC (Quality Network for inpatient CAPMS) standards are the basis for the annual standards-based self and peer reviews carried out by QNIC members. As over 95% of CAMHS Tier 4 units are members, the QNIC standards are widely used and understood and form the basis of the NHSE service specification standards for services.

The service at DJU is highly regarded by patients and families and by commissioners. The QNIC review specifically identified that "Staff have a special skill set and this could be nurtured and developed in the future. Policy and procedure is well thought out and child and family focussed."

### 3. National context

National policy context for CAMHS is set out in NHS 5 year Forward View and 'Future in Mind' strategy which sets out future direction with regards to Tier 4 services and specifically states need for improved quality of service, delivery of care closer to home and greater integration with community CAMHS services.

In line with this policy direction, NHSE are responsible for undertaking a *national review of CAMHS T4* services, overseen by the National Mental Health Review Board.

Number of national drivers behind need to review current arrangements including:

- Quality of services
- Uneven distribution of beds
- Issue of beds closed to admissions for operational reasons
- Travel distances

Within NW the NHSE are also cognisant of more local issues including:

- Impact of local authority funding reductions
- Environmental issues within units
- Variation in bed day costs
- Educational input variation
- Variation in service delivery models

The national review will include:

- Needs assessment and capacity planning
- Development of specialist MH database to support case managers in placing patients but also inform planning assumptions as will measure demand
- Review of local intelligence including local service transformation plans
- Engagement providers/CCGs/patients and families
- Agreement regarding market intervention and subsequent tendering process

Briefing Paper Board 31.08.17 Andrew Williams Director of CAMHS Page 2

### 4. Tender process and business case development

Early indications from the national bed modelling suggest that the North West is a net importer of patients from other regions. This is likely to mean a reduction in some (not Alder Hey) types of Tier 4 beds within the North West. Some regions have gross under provision of certain types of beds which is being addressed in advance of any changes in bed configuration in the North West.

The tender for the *Tier 4 children's services* will be based on a provider's ability to meet the core standards set out in the NHSE Service Specification. Currently Alder Hey does not meet one of the core standards related to estates and facilities. This standards states that:

The Tier 4 CAMHS Children's Unit should be co-located with either other Tier 4 CAMHS services or other children's in-patient services or be supported by a network of mental health/ paediatric services within the vicinity or have robust adequate response plans in place to deal with any emergency requiring additional staff

https://www.england.nhs.uk/wp-content/uploads/2013/06/c07-tier4-ch-ado-mh-serv-child.pdf

An additional 15 Tier four Eating Disorder beds are also likely to be commissioned in the North West as part of the national review. These additional beds will be required to be co-located with tertiary paediatric inpatient services.

The timescale for the process to be completed, including retendering, is by the end 2021 and is likely to start in next 6-9 months after increase in capacity in other regions has taken place.

The business case to support the move of the DJU to the Alder Hey campus will include the requirement to deliver against the service specification and include capacity for additional eating disorder beds. The case will include full financial modelling of the impact of the move and any mitigation of the capital costs.

### 5. Considerations for Alder Hey

- T4 Children's inpatient beds are not likely to change in terms of numbers however other providers are likely to be interested in the tender opportunity due to reductions in their beds so we **must meet** the service specification and demonstrate innovative models, high quality and excellent outcomes.
- NHSE has indicated that eating disorder beds should be co-located with specialist paediatric services and suggested 2 sites for the 30 beds one in Liverpool and one in Manchester. It is likely that this opportunity may be attractive to private providers but would also be something Alder hey could consider to extend its current offer.
- Synergy between T4 and T3 providers is likely to be important in the tendering process and they are advocating a place based commissioning approach (with the inclusion of local commissioners as part of process).
- There may be transformation money to support new models of care. Alder Hey was
  part of a group provider bid for additional money to improve assessment, admission
  alternatives and reduced length of stay. Although not successful we have agreed to

continue to be part of this working group going forward. The group includes North West Boroughs, Cheshire & Wirral Partnership Trusts and two independent sector providers.

- NHSE has declared the intention to commission an extra 180 T4 beds nationally to ease the current crisis. Alder Hey has indicated a willingness to open two additional paediatric beds at Dewi Jones now.
- NHSE also intends to offer interim money nationally to pump prime crisis care. There
  have been a number of local and national cases where it is thought that better crisis
  care would have led to better patient journey and outcome. We will be part of a call
  with our 5YFV partners shortly to look at if there is merit in a whole footprint bid for
  the resources.
- We continue to get significant interest from other areas and non-nhs patients about providing inpatient care. The service has been challenged to provide the capacity to support this on an ongoing basis but the Division has agreed a plan to increase capacity (2 beds) in order to satisfy this demand and demonstrate the ongoing need for additional beds in this highly specialist area.
- A move of specialist CAMHS inpatient services to the Alder Hey campus would support improvements in the management of complex mental health admissions through A&E. Currently patients are admitted into an acute paediatric ward environment which is not necessarily best suited to their needs and we do not have RMN staff on duty. A move of the DJU unit onsite would support the development of improved pathways of care and provide additional expertise when required.

### 6. Recommendations

Trust Board is asked to support the intention to develop a full business case for the redevelopment of the Dewi Jones Unit on the Alder Hey campus, which will enable the service to be delivered in line with national service specification requirements, and with the capacity to deliver against both current and future demand

### **BOARD OF DIRECTORS**

### Tuesday 5th September 2017

Report of:	Chief Nurse		
Paper Prepared by:	Director of Nursing and Clinical Risk Manager		
Subject/Title:	Serious Incidents Requiring Investigation		
Background Papers:	n/a		
Purpose of Paper:	This report summarises all the open serious incidents in the Trust and identifies new serious incidents arising in the last calendar month.		
Action/Decision Required:	For information regarding the notification and management of SIRI's.		
Link to: ➤ Trust's Strategic Direction ➤ Strategic Objectives	<ul> <li>Patient Safety Aim – Patients will suffer no harm in our care.</li> <li>Patient Experience Aim – Patients will have the best possible experience</li> <li>Clinical Effectiveness – Patients will receive the most effective evidence based care.</li> </ul>		
Resource Impact			

Page 1 of 12

### THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY

Page 2 of 12

Page 19 of 207

### 1. Background:

All Serious incidents requiring investigation (SIRI) are investigated using a national Root Cause Analysis (RCA) investigation methodology.

Incidents are categorised as a Serious Incident Requiring Investigation (SIRI) using the definitions in the Trust "Management of Incidents including the Management of Serious Critical Incidents Policy". All new, on-going and closed SIRI incidents are detailed in Appendix A of this report.

Safeguarding children cases reported through StEIS are included in this report. Since June 2014 NHS England have additionally requested that the Trust report all Sudden Unexpected Deaths in Infancy (SUDI) and Sudden Unexpected Deaths in Childhood (SUDC) Cases onto the StEIS Database.

SIRI incidents are closed and removed from the table of on-going SIRI incidents following internal approval of the final RCA investigation report, in addition, an external quality assurance process is completed via Liverpool CCG as lead commissioners. The SIRI incident is then transferred to the Trust SIRI Action log until all actions are completed. Progress with implementation/completion of the SIRI action plans are monitored by the Clinical Quality Assurance Committee (CQAC).

### 2. SIRI performance data:

# 17/18/15 Minutes of the previous meeting held on 17<sup>th</sup> May 2017 **Resolved:**

CQAC approved the minutes of the last meeting held on 17<sup>th</sup> May 2017.

### 17/18/16 Matters Arising and Action list

17/18/05- ES indicated that the Trust is awaiting the CQC report, with no definitive timeline for receipt of the report, ES indicated that she envisaged receipt approximately during late summer.

Outpatient Walkabout – ES conveyed apologies for the delay in formulating the Visibility walkabout process. ES indicated that the walkabout meeting process would commence at the end of July, once appropriate staff had been given a minimum 6 Weeks' notice. ES confirmed that the intention would be to commence with the Division of Surgery. ES stated that the scoping of availability would commence. Chair Highlighted the importance of progressing this issue asap once 6 weeks' notice had

been

given.

16/17/131 SIRI (referral issue) – MB indicated that she hadn't yet reviewed the final outcome of the recent RCA. Task and Finish work had been completed and had

Alder Hey Children's NHS NHS Foundation Trust

Page 30 of 207

addressed most actions. E Morgan and M Burns continue to track actions.

# Action: MG to write to CQAC with position statement with an update by Monday 26<sup>th</sup> June.

16/17/133 Water Safety Tracker – MB confirmed that the Water Safety Group had been revised and a sub group had been set up, with the first meeting already taken place, which had resulted in an updated action plan. MB indicated that she envisaged a notable improvement with compliance given the improved clarity. Discussion took place on PLACE basement with regards to flushing of baths, - MB agreed that she would convey to the Water Safety committee that CQAC need to be cited on issues, and would require a report detailing a position statement.

16/17/171 Review of action log – this item had been completed and would be removed from the action log.

Equality Discussions – JFF had been in dialogue with H Ainsworth, L Stark is also in discussions with HA.

# Action: MS to follow up Equality issues with H Ainsworth in order to address any equality gaps.

Review of clinical investigation notices – currently awaiting position statement from Nik Barnes, agenda item will be on CQAC agenda, once NB is in a position to update.

Quality Impact Assessments – following discussion CQAC agreed that they require an position statement detailing outstanding Quality Impact Assessments.

# Action: Quality Impact Assessment position statement to be shared with CQAC – to be shared at next CQAC meeting on 19<sup>th</sup> July 2017.

### 17/18/17 Trauma Update

Bimal Mehta and Mike Wafer presented the Trauma Update, key issues as follows:-

Major Trauma activity for 16/17 is detailed below, compared to 2015/16. 2015/16 – Moderate Major Trauma patients - 81, Severe Major Trauma 55, totalling 136 2016/17 – Moderate Major Trauma patients – 62, Severe Major Trauma 55, totalling 117 BM reported that through the Trauma network, the network monitor whether this is a true reduction in trauma cases. Data on other outcomes is lacking in children with a lack of appropriate measures. Alder Hey is working within NHS North Children's Rehabilitation Board and the Children's Major Trauma National Network, together with the Trauma and Audit Research Network, to develop appropriate outcome measures, including patient/carer reported outcomes.

The Trust had seen an improvement in quality of patients transferred.

The number of deaths following admission to Alder Hey with Major Trauma in 2016/17 was 6 (5%). In 2016/17 of note is the increasing number of children arriving at Alder Hey by Air Ambulance – an increase of 100% compared to 2015/16 (22 arriving by helicopter compared to 10 in 2015/16).

Outcomes had improved since the implementation of recognised trauma networks in 2012. Alder Hey performs well in comparison with peer units for outcome measures such as survival,

NHS Foundation Trust

Risk: Management of Pelvic Injuries – following the move to new site of major trauma services to one site in Cheshire and Mersey to Aintree University Hospital, there has been a lack of clarity as to the provider of the pelvic service for children who have experienced major trauma. The service was previously provided by Royal Liverpool University Hospital Trust. The Children's Major Trauma Service at Alder Hey is seeking support for a formal service level agreement for the needs of children with pelvic injuries. BM reported that the Orthopaedic team had approached Wigan to request support from Wigan, and team are currently awaiting a meeting date with Wigan to discuss this issue further.

Alder Hey Clinical lead with the Children's Major Trauma Network Manager supported the Cheshire and Mersey Review of Major Trauma and Critical Care on 18/19 May 2017. The senior team for children at Nobles Hospital is seeking to establish stronger links with Alder Hey to enhance the skills of their staff caring for critically injured children.

CQAC noted the extremely positive After Trauma Day which was held in May 2017, which resulted in children and their families who were involved in major trauma and required the services of Alder Hey in 2015/16 being invited back to the Trust where they had a tour of the pathway from Resuscitation to Theatre, with an opportunity to ask questions from the teams involved in their care. The children were then able to view an Air Ambulance Helicopter up close and hear about the work of the Air Ambulance. CQAC noted the inspiring talks from patients and young people about their experience of major trauma. The feedback following the day had been extremely positive and it hoped that this would become an annual event.

CQAC highlighted that communication regarding the positive event should be shared widely across the Trust.

Chair thanked BM & MW for the update, and looked forward to receiving a further update in 6 months' time.

### 17/18/18 Car Parking update

Natalie Deakin presented Car Parking update. CQAC noted that the new car parking system is due to be installed in the Trust week commencing 19<sup>th</sup> June 2017, and installation would be completed by 30<sup>th</sup> June 2017. CQAC also noted that alongside the installation of the new system, an increase in the car parking charges for our patients and visitors would also apply:- Tariff as follows:-

- 0-30 minutes Free
- 30 minutes 2 hours £2.50
- 2-6 hours £3.50
- 6-8 hours £4.50
- 8-24 hours £6.00
- A payment of £5.00 would be charged for lost chip coins in addition to any parking charges.
- Communications with regards to the new tariff would be published in a letter to patients and families and would be on the Trust website on Monday19th June, staff would be made aware through the normal channels Team brief/intranet etc.
- The Trust would continue to offer long stay patients a discounted rate for parking. Currently priced at £25.00 for one month unlimited access or £10 for 10 consecutive days.

Car parking environment

• Car park sweeper had been recently purchased which would significantly improve the cleanliness of the car park. As part of the proposed model for the Facilities

NHS Foundation Trust

Department, the car park will benefit from a domestic from Monday to Friday between the hours of 7pm and 10pm, as well as a dedicated car parking attendant, Monday – Friday between the hours of 8.30 am and 5.00 pm. The car parking attendant is a completely new post and his/her duties will include issuing warning notices and PCNs to staff and visitors who are not parked correctly. This will also extend to other surface car parks across the site.

• Replacement and additional signage had been ordered and is due for installation at the end of June, - signs will include Car park terms and conditions, signs to direct patients and visitors to the pay stations as well as additional signed to deter patients and visitors from smoking in the car park.

Discussion took place regarding changing patient/carers behaviour with regards to litter and increasing the amount of bins within the car park to ensure that litter is kept to a minimum.

The Chair thanked ND for her update.

### 17/18/19 Programme Assurance Report

J Gibson provided a programme assurance update as follows:-

CQAC noted that this year's change programme remained at least a quarter behind schedule. Executive review of the programme is underway and arrangement should be made for these recently identified financial and quality improvements to be incorporated within the PIDS and project documentation at the earliest opportunity.

- Best in Operative Care, 7 day services and Reduce infections project within this work stream progress completion of all project documentation to provide assurance to delivery of the required financial and quality benefits.
- The latest forecast is savings of £0.2M, which is extremely low, and not sufficient to meet the financial objectives of the programme, with the only project currently forecasting a saving is Best in Operative Care. There is an additional £0.1M of opportunity identified in Experience in Outpatients, with Exec sponsor requested to review the saving potential as a matter of urgency to ensure the opportunities into savings and increasing the value of the overall forecast.
- Only one of the five projects had a PID fully completed to the required standard, awaiting further details of the 7 Day services project which is the subject of a merger with another project. 'High Quality Acute and emergency care' of the projects that are rated, the 'Outpatients', 'Deteriorating Patient' and ' Best in Operative Care' projects are all making and maintaining good progress with regards to the assurance evidence. However, all milestone plans are currently showing as 'off track' which is a risk to timely delivery of the benefits being pursued.
- The focus should be placed upon accelerating the work to fully define the '7 days services' and 'reduce infection' projects and reach the assurance standards for both. The additional requirement for further efficiencies should also be the subject of rapid amendment to scope and plans of the project wherever appropriate.

### 17/18/19 Sepsis Update

G Smith provided key issues update regarding Sepsis:-

- Roll out All wards had now gone live with the NICE Sepsis screening pathway, with the exception of the Neonatal Ward (which is scheduled to go live 20<sup>th</sup> June – delay due to build in BadgerNet.)
- Nurse Training target for go live was 70% of available wards staff to 'go live' with sepsis screening. Currently at 90% overall, but pushing for all nurses to be trained by middle of July, level of engagement by nursing team had been exceptional.
- Sepsis Team last post to start fully on the 3<sup>rd</sup> July 2017.

NHS Foundation Trust

- Toolkit Development of Toolkit in both Meditech 6 and BadgerNetg EPRS.
- Medical training being delivered via induction/resuscitation Mandatory Training and sepsis pathway documentation during Meditech training.
- Engagement, establishing close links with clinical teams to support greater focus on sepsis
- Incidents introduction of a highlighted field for Sepsis, so that the sepsis team can support clinical teams to improve their recognition and response to suspected sepsis.

IT/Informatics

- Sepsis team are working with Meditech and informatics to address key challenges in retrieving information from the system. Most recent audit from ED showed:-
- Feb 2017 2hrs 6 minutes time to IV antibiotics (Target is 1 hour)
- May 2017 52.7 minutes time to IV antibiotics

Next Steps

- Benchmarking against other centres Birmingham and GOSH.
- Improving access to informatics reports for auditing and CQUIN reporting.
- Work with Meditech to enable key improvements to streamline processes.
- Work with Resus Team (work stream) to ensure medical training is fully rolled out and regularly refreshed.
- Increase venepuncture/capillary sampling training for registered nurses.
- Improved sepsis pathway documentation.

JW queried whether the Trust should engage with General Practices with regards to learning/training for GPs; VW confirmed that this is a national issue and that this is being discussed at national group meetings.

Action: MB to speak to Jim Cuthbert to address issue.

MS to explore jointly with Board at LCH whether there are any opportunities for enhancing discussions regarding primary care for mutual benefit, and update at future Trust Board meeting.

### 17/18/20 Corporate Report – Quality Metrics

### Patient Experience – PB provided a verbal update as follows:-

Metrics for patient experience are within target, with the exception of knowing the planned date of discharge, however there is a significant improvement in the score. There is an increase of 29% in formal complaints from the same month last year.

PALS contacts had seen a reduction this month of 31% - 88 contacts compared to 127 in April 2016. Community Paediatrics had received the highest number of concerns specifically relating to appointment delays. Further work to do with regards to increasing the number of responders for the Family and Friends test and improving completion uptake.

### **Clinical Effectiveness**

All clinical effectiveness measures were within target for Month 1. There were 6 total infections which equated to the same as April 2016. There were zero MRSA bacteraemia and zero Clostridium difficile infections. There is also an apparent reduction in patients discharged later than planned from 77 (5.4%) in April 2016 to 44 (3.4%) in April 2017. However this data is still under validation.

PB indicated that the clinical incident relating to harm trend line appeared to look like an increase, however PB stated that this is a reporting issue, with all cases being involved in a 'deep dive' and all cases had been validated to understand the level of harm.

Page 34 of 207

PB confirmed that safety screens would be insitu on wards w/c 26<sup>th</sup> June 2017 and that ward dashboards are being updated to reflect any changes.

PB highlighted the demonstrable impact/improvement of the role of the medication safety officer, resulting in a reduction of medication errors resulting in harm.

Lachlan Stark had undertaken a review of a number of comparable Trusts corporate reports, and that he was in the process of improving the content of Alder Hey's corporate report, to ensure future corporate report would be better aligned to the key lines of enquiry, and would include metrics, ongoing actions and would link into division's benchmarks/targets. The proposed improved corporate report would be presented to CQAC once complete.

#### Action: Lachlan Stark to present Corporate Report

#### **Patient Safety**

There were 6 medication errors resulting in harm versus a target of 5 for month 1. This equates to the same number as April 2016. There were 2 pressure ulcers of grade 2 and above, compared with 3 in April last year, following RCA both cases were deemed unavoidable. There were zero never events during April, however 77 clinical incidents resulting in harm were recorded against a target of 49. Only 2 of these were classed as causing moderate harm or higher, ahead of a target of 3.

The Chair thanked PB for her update.

#### 17/18/21 Board Assurance Framework

CQAC received and noted the BAF. ES confirmed that a Key line of enquiry consultation document has been issued, and that this would be included on the July CQAC agenda for Further discussion.

Action: ES/HG/PB to meet to discuss strategic risk within BAF Key Lines of enquiry consultation report - Agenda item for July meeting

#### 17/18/22 Clinical Quality Steering Group key issues report

PB presented Clinical Quality Key issues report:-

Consent audit report – Audit had shown that for complex procedures consent is being documented fully in the case notes and letters, however need to find out what is missing from paper.

CQAC noted that the following policies had received approval, Medical Devices, Nasogastric Tube Placement, Lone Worker policy, Diagnostic Testing policy.

CQAC noted that a report on NICE Guidelines compliance highlighted that improvements are required in meeting the Trust internal target to complete baseline assessment and development of any action plans for Clinical Guidelines and quality standards within 6 months. Head of Quality and Governance Co-ordinators will address this issue at Divisional risk and governance level. Nominated leads for each standard will be reviewed. Report back on programme and timescales to July 2017 CQSG.

Discussion took place regarding violence and aggression from a patient in Dewi Jones, which had been escalated to NHS England. During w/c 19<sup>th</sup> June staff had noted an improvement in the child's behaviour.

Discussion took place regarding Domestic abuse and whether staff could access support and services at Alder Hey should they need to. MS stated that support could be further

strengthened with further proactive work, and referred to a colleague on site 1 day a week from team prevent – who could work with managers to assist managers in identifying staff who may require additional support.

Action: MS to liaise with Team Prevent to explore potential options for further improvement to support staff.

CQAC noted the CQSG report. Chair thanked PB for her update.

Resource Impact	None

ъ.

Quarter 1; April 2017 – June 2017

### **Complaints summary**

The Trust received 18 formal complaints during this period. Two complaints from this quarter where subsequently withdrawn from the process at the complainants request and 2 complaints also started as an informal concern (PALS) however due to dissatisfaction with informal outcome the complainant requested this progress to the formal complaint route. As a result of the recent Divisional restructure we are unable to provide internal benchmarking data by Division to demonstrate improvements or decline in numbers of negative feedback being received. Comparison will be presented for the Trusts position.

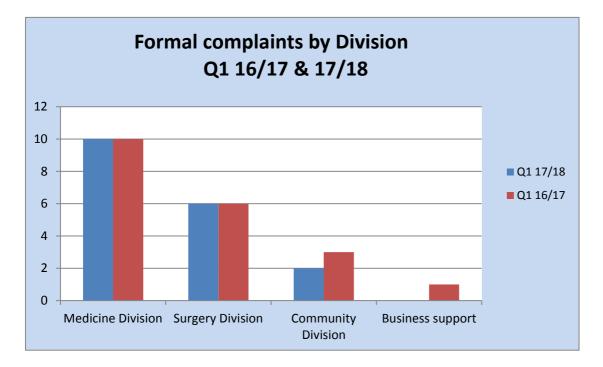

In 2016/17 Q4 the Trust received 19 formal complaints - this is therefore a decrease of 5%.

The main category of complaints received continues to be "Treatment/procedure" (50%). This relates to parents questioning whether the care their child has received is appropriate. The second category of complaints received is "Communication/consent" (33%) – parents leave the hospital and remain unclear regarding what treatment pathway their child is receiving or indeed what care has been delivered to them whilst they have been in the hospital. Whilst there is no actual evidence to align these two categories of feedback there is some indirect correlation between effective communications at the time of the care we are providing.

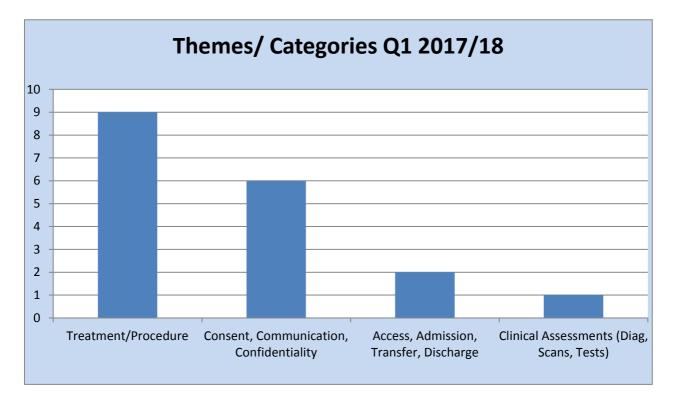

### **Complaints by Division in Quarter 1**

The following graph demonstrates the amount of complaints received within each Division during Quarter 2017 - 18. Due to the devolved Governance model and Divisional restructure it is difficult to display comparison data for the Divisions from this time period last year however a manual extraction has been undertaken to attempt to display a graph.

Medicine Division continue to experience higher numbers of formal complaints – there is no theme for these complaints, they appear to relate to a variety of speciality/departmental areas within the Division.

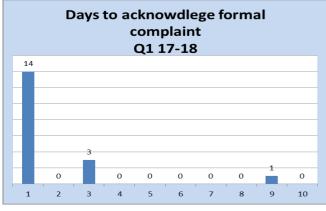

The table above demonstrates the continued challenge faced regarding the diagnosis and treatment pathway made for children yet queried by parents/carers. This quarter we can also see concerns raised relating to communication/consent and issues relating to access/admission arrangements and one that relates to a missing blood sample.

### Report against three day acknowledgement

The Trust has three working days to formally acknowledge a complaint; this can be in an email or by phone. The Trust has a generic formal complaint acknowledgement letter that is sent out to the complainant; this includes a named contact for the complainant to contact should they require to do so (including the direct phone number) and the date the response is expected to be with them. The letter also includes information relating to the services offered by Healthwatch Advocacy.

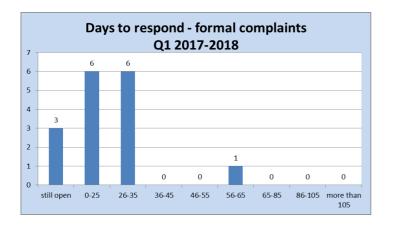

In Q1 one complaint was not acknowledged until day 9. There is no information documented to explain the delay.

The Trusts internal timeframe for responding to complaint is 25 working days, however if the complaint is complex and multi organisational we can discuss this with the complainant and negotiate an extended timeframe with them and agree a new date for response.

Mersey Internal audit agency (MIAA) has requested in their latest review that we make alterations to the timeframes graph as depicted below.

### Withdrawn complaints - include details

SO02568 & SO02584 where withdrawn after the process had started. Associated reasons for withdrawing the complaints where, the surgery date was re-instated (SO02584) as additional theatre sessions where sourced and therefore the complaint was satisfied and requested the complaint be withdrawn.

SO02568 Mum raised concern re a tooth that was knocked out when the child was being woken up after surgery and the endotracheal tube was being removed. Mum has been in touch with a Solicitor and has now requested that the Trust does not make contact with her again directly regarding this matter.

\*\*UPDATE \*\* 31 July 2017 – a further complaint has since been withdrawn (23 days into the process) after the parents received a very through explanation from one of the Operation Managers over the telephone with assurance that this would be thoroughly investigated and actions would be fed back to the parents.

### **Complaint outcome**

6 complaints where upheld within this quarter and 5 where not upheld. 4 complaints are still ongoing as 6 received in June and two surgical complaints are extremely complex in nature and response.

All complainants are fully up dated regarding any delays in response timeframes.

Upheld complaints from July 2016 are now uploaded onto the Trusts external facing web page- this is the link to access the web page. <u>http://www.alderhey.nhs.uk/your-visit/</u>

This information is taken from complaints that have been responded to within the previous calendar month. These are complaint upheld with actions required as part of the response. All complaints are logged onto the Trust action plan that is taken to the Clinical Quality Steering group for discussion and dissemination to the Clinical Business Units.

### **Referrals to Parliamentary & Health Service Ombudsman**

One case has been investigated and closed from the PHSO in Q1 – this case was partially upheld (CAMHS)

We have been notified that the PHSO are planning to investigate a case from 2014 - all records have been submitted as requested and additional information has recently been submitted (Cardiac surgery and Childrens Community Nursing Team)

### **PALS summary**

Q4 reported enquires to PALS at a significant increase of 391. Further investigation looking at enquiries linked to activity show a correlation between the two data sets.

	Q3	Q4	INCREASE	ACTIVITY	ACTIVITY	INCREASE			
	PALS	PALS		Q3	Q4				
	218	391	173 – 44% ↑	57020	60094	3074 – 5%↑			
Community	39	68	29 - 43% ↑	3325	3942	617 - 16% ↑			
Paeds									
General paeds	10	27	17 – 170% ↑	3356	3299	-57 - 2% ↓			
Ophthalmology	22	35	13 – 37% ↑	4070	5097	127 – 20% ↑			
Orthopaedic	10	23	13 – 130%	4054	4253	199 - 5% ↑			
Phlebotomy	3	17	No activity data available						

The table above is to demonstrate the increase in contacts/enquiries to the PALS team for certain specialities and the increase from Q3 to Q4. Activity data has been included to show increase in activity that may explain the correlation between the stark increase in PALS contacts seen in Q4; but not in all specialties.

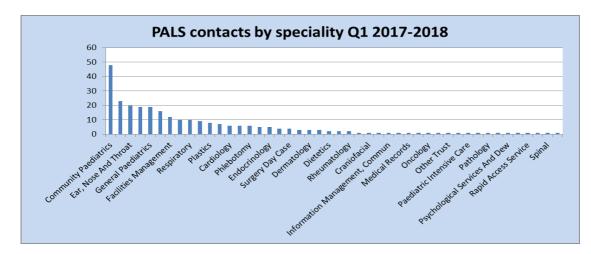

In Q1 2017 -2018 PALS contacts received have dropped to 308 contacts.

(blank) Grand Total	12 <b>308</b>
Surgery	101
Medicine	116
Community	65
Business Support Unit	14

<b>Fig 3-</b> PALS contacts from 2014/15 – Q1 2017/1	from 2014/15 - O1 2017/18
--	---------------------------

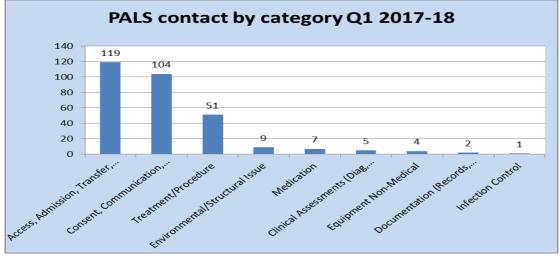

The table below shows a change in the top three this quarter as compared to previous quarters.

Concerns about access/admission/transfer/discharge has increased to 119. This is **39%** of the overall contacts for the quarter.

Key actions & lessons learnt from PALS during Quarter 1

The main issues identified within Q1 relate to parents contacting the PALS office chasing appointments, or they have received a letter asking them to ring for an appointment only to be told when they do ring that there are none available.

PALS and complaints are communicated and fed back to senior staff at the three Divisional Risk & Governance meetings /Quality meetings to ensure appreciation of current trends are fully disseminated and actions can be taken to look at specific areas of concern.

### Compliments

Compliments are now recorded on the Ulysses system and shared with the relevant teams. Recent email compliment

My daughter has been in Alder Hey now on 4 occasions on 3 of these occasions we seen the same consultant in a&e called Eileen Burns, she has looked after my daughter with so much care and passion, she's made us feel at ease, looked after us as a family also, explained every situation properly and step by step. I can't thank her enough if it wasn't for her and her

fantastic team at a &e things could have been a lot different for us. Eileen is an absolute credit to Alder Hey not just the Emergency Department.

**IPC REPORT** 

QUARTER 1 2017-18

(April – June)

### KEY MESSAGES – Exception Reporting

This report provides the Board with the challenges for delivery of the Infection Prevention & Control Work Plan 2017-18.

At the end of Q1 53% (40/76) of the total of deliverables had been completed. 39% (30/76) of the total deliverables were in progress (amber). 8% (6/76) classified as red. Please see table 1 for RAG rating.

Progress has been made during Q2 with 54% (41/76) of the total number of deliverables completed, 30% (23/76) of the total deliverables in progress (amber), 3% (2/76) classified as red (please see table 2 below). There are 10 deliverables (13%) that we are unable to classify until the end of Q2.

### Table 1: Deliverables RAG rating

Reporting Period	No. of deliverables	Red	Amber	Green	Outstanding
Q1	76	8% (6)	39% (30)	53% (40)	
Progress so far for Q2	76	3% (2)	30% (23)	54% (41)	13% (10)

### Infection Prevention & Control Annual Work Plan 2017-2018

The table below is the 'Code of Practice' for all providers of healthcare and adult social care on the prevention of infections under The Health and Social Care Act 2008 (revised 2015). This sets out the 10 criteria against which a registered provider will be judged on how it complies with the registration requirements related to infection prevention. This work programme below has been linked to these codes and to the Trust's Objectives 2017-2018.

Compliance criterion	What the registered provider will need to demonstrate
1.	Systems to manage and monitor the prevention and control of infection. These systems use risk assessments and consider how susceptible service users are and any risks that their environment and other users may pose to them.
2.	Provide and maintain a clean and appropriate environment in managed premises that facilitates the prevention and control of infections
3.	Ensure appropriate antimicrobial use to optimise patient outcomes and to reduce the risk of adverse events and antimicrobial resistance.
4.	Provide suitable accurate information on infections to service users, their visitors and any person concerned with providing further support or nursing/medical care in a timely fashion.
5.	Ensure prompt identification of people who have or are at risk of developing an infection so that they receive timely and appropriate treatment to reduce the risk of passing on the infection to other people.
6.	Systems to ensure that all care workers (including contractors and volunteers) are aware of and discharge their responsibilities in the process of preventing and controlling infection.
7.	Provide or secure adequate isolation facilities.
8.	Secure adequate access to laboratory support as appropriate.
9.	Have and adhere to policies, designed for the individual's care and provider organisations that will help to prevent and control infections.
10.	Providers have a system in place to manage the occupational health needs and obligations of staff in relation to infection.

My Alder Hey. My Values.

## Alder Hey Children's NHS

NHS Foundation Trust

### Trust Wide Infection Prevention and Control Action Plans

Drawing from the evidence presented in the IPC Annual Report 2016/17, key themes have been identified to target for 2017/18. Trust wide Action Plans will be developed with other key stakeholders from the Trust to implement and progress these actions.

Key Themes			Initial Meetings
	and Control Lead	Service	
Methicillin Sensitive Staphylococcus Aureus (MSSA ) Bacteraemia	Claire Oliver	Sara Melville (Lead Nurse –IV)	23 <sup>rd</sup> August 2017
Surgical Site Infections (SSI)	Lisa Moore	Ellen Buckley (Tissue Viability Nurse)	21 <sup>st</sup> August 2017
Environmental Cleanliness	Jo Keward	Vickie Lam (IPC Clinical assistant)	24 <sup>th</sup> August 2017
Prevention of pressure ulcers	Val Weston	Ellen Buckley (Tissue Viability Nurse)	TBD

These Actions Plans will be reviewed and monitored via the IPCC and the governance structures in each relevant division and progress communicated to the Trust Board.

Page **18** of **18** 

### TRUST BOARD REPORT

### MORTALITY ASSESSMENT AT ALDER HEY Medical Director's Mortality Report

The report is split into two sections. Section one is a review of the Hospital Mortality Review Group (HMRG) including the number and types of death at Alder Hey during the calendar year to date and how the HMRG is meeting its aims.

Section two is the Quarter 1 Mortality report which includes a review of statistical analysis in PICU and Cardiac Surgery, followed by more detailed analysis of the place of death, teams involved and specifics about expected v observed deaths.

### Section 1: Report from the Hospital Mortality Review Group (HMRG) Jan-Dec 2016

### Summary table 2016:

Number of deaths (Jan. 2016 – Dec. 2016)								
Number of deaths reviewed								
Departmental/Service Group mortality reviews within 2 months (standard)	89% (73/82)							
HMRG Primary Reviews within 4 months (standard)								

### Summary table 2017:

Number of deaths (Jan .2017-Jun. 2017)	36
Number of deaths reviewed	5
Departmental /service group mortality review within 2 months ( standard)	26/29 (90%)
HMRG Primary Reviews within 4 months (standard)	4/9 (44%)

The 4-month review period is the standard that was set and this is still the standard that the group is aiming for, but 65% of the deaths have been reviewed within 6 months.

It is clearly disappointing that we are not achieving the standard that we set ourselves. However, we have been working hard to reduce the backlog and

this year's figures are already much better. We are holding two extended meetings in September and October and the HMRG members are attempting to complete as many reviews as possible so we can be completely up to date by the end of October.

Many of you, will be aware, that it is a time of change for mortality reviews nationally, following a number of documents including Learning from Deaths Guidance (March 2017) and the CQC report 'Learning, candour and accountability :review of the way NHS Trusts review and investigate death.

Currently, paediatrics is exempt from the majority of the requirements and the paediatric guidance is expected to be released towards the end of this year. However, there are a few changes that need to be implemented immediately:

1) The identification of children with learning disabilities who have died and to notify a centre in Bristol if this should occur. We have altered our forms accordingly and are capturing this data to the best of our abilities. The lead for Learning Disabilities in the Trust will be joining the hospital mortality group.

2) Collect and publish, on quarterly basis, specified information on deaths – through a paper and agenda item to a public board meeting.

3) As a Trust we need to have an updated mortality process available by September this year. This is currently being re-written with the improvements that we have made by using the above documents to improve our existing process. This is being done in a number of ways:

- a) Improved communication between all the groups involved when a child dies. e.g. Child protection, CDOP
- b) Discussion with the family at the appropriate time for them, informing them of the HMRG process and giving them the opportunity to raise any issues about the care that their child received, and anything that could have improved their time in the hospital.
- c) Availability of RCA's for the reviewer and all related reviews e.g. trauma, ensuring the group can provide the most informed assessment possible
- d) Above all, we need to ensure that any learning from any child that dies is disseminated throughout the Trust to benefit everyone and improve the care that we provide. This should happen through governance meetings, departmental M&M's, HMRG members, webpage (not created yet) and perhaps a newsletter.

e) Potential for linking with other paediatric hospitals to have an external peer review to further validate the process.

### Background for change nationally

Over the last 10 year, the UK has gone from one of the lowest paediatric mortality rates in Europe to one of the highest. It is thought that 24% of these deaths were preventable and 54% of deaths in hospital were identified as having modifiable factors.

The Wood review 2016 stated that national responsibility should move from the Department of Education to the Department of Health – Children and Social Work Bill 2017 and a child mortality database should be established.

Month	Number of Inpatient Deaths	HMRG Review Completed	Dept. Reviews within 2 month timescale	HMRG Reviews within 4 month timescale	Discrepa ncies HMRG – Dept.	HMRG Review – Death Potentially Avoidable

## Discordant conclusions of the HMRG vs. Departmental/Service Group reviews:

Since the previous Trust Mortality Report there have been 9 cases where the HMRG mortality review conclusion was discordant with the Service Group/Departmental Reviews' conclusions.

In 4 cases the HMRG rated that the care given was better than on the departmental review. For 2 of the cases 'adequate care' was improved to 'good practice' by the group. In the other 2 cases, the department recorded 'aspects of clinical care could have been better 'but HMRG reviewed them as 'adequate'.

In 1 case the service group review graded the care provided as good practice HMRG changed it to 'adequate/standard care'

In 2 of the cases the service group reviews found that clinical care was 'adequate' whereas HMRG felt 'aspects of the care provided were less than adequate but different management would not have reasonably been expected to alter the outcome'. In one of these cases HMRG found that 'aspects of clinical care could have been better' and in the other 'aspects of organisational care could have been better'.

In 1 case the initial review found the care 'adequate' whereas HMRG decided that 'aspects of organisational care could have been better'.

In 1 of the cases the initial review found adequate practice but HMRG found that 'aspects of care provided were less than adequate and different management may have altered the outcome'. This will be discussed in more detail below.

### Potentially modifiable factors and actions:

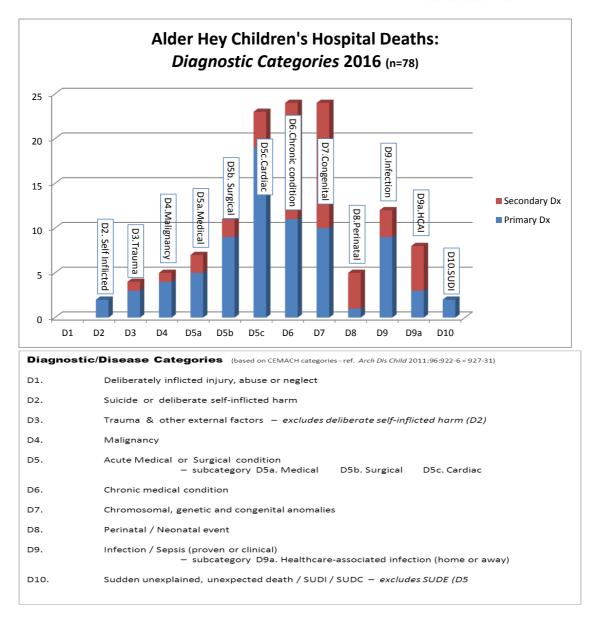

Since the previous Trust Mortality Report, there have been 4 in-hospital deaths where there are factors which may have played a role in the child's death, 2 with lessons for the Trust itself:

- 1) Potentially avoidable death due to drowning due to lack of floatation aids.
- 2) Ensuring more serious conditions are considered as part of a differential diagnosis and that all relevant clinical information is considered in producing a treatment plan. This case was subject to a full Root Cause Analysis
- 3) Ensuring during medical presentations that blood pressure is always recorded
- 4) The Coroner highlighted co-sleeping as an avoidable risk factor for sudden death in infancy. Currently, there is an ongoing Safe Sleep campaign in Merseyside.

### Primary Diagnostic Categories:

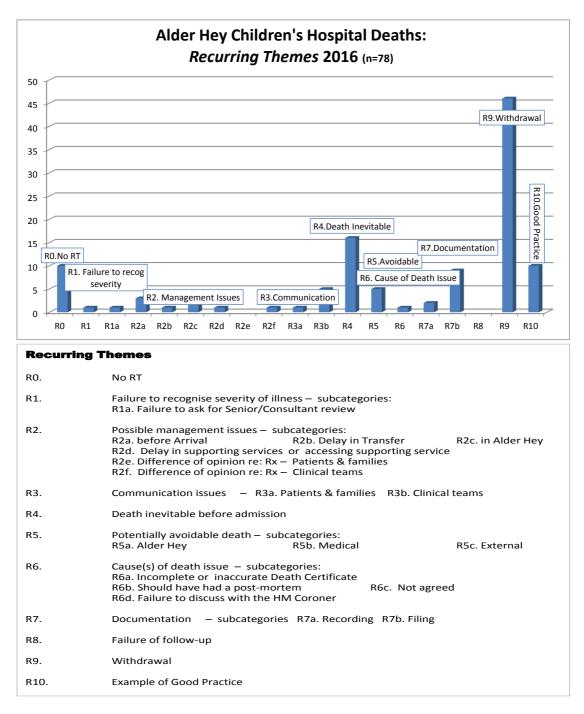

The chart below shows the deaths by primary diagnostic/disease category.

The commonest causes for deaths so far in 2016 with only 3 cases outstanding are cardiac conditions (24%), with chronic disease (14%) and congenital conditions 13%. These are as expected as I will explain with the recurrent themes.

The chart below shows the Recurring Themes identified in 2016 HMRG Reviews.

Looking at the figures for the recurring themes the most frequent is withdrawal in 59% of cases. The next highest theme is that death is inevitable prior to admission to AHCH (21%). These are vital to record as despite all possible care being provided there was nothing that could be done for these children and it is a significant number of the deaths. This explains why the cardiac cases are the highest in the primary diagnosis as there are a number of patients that are transferred here as the cardiothoracic centre. They undergo a detailed assessment and some children are found to have conditions which are inoperable but then stay in AHCH for palliative care.

Documentation which was a recurring theme in previous reports has now decreased due to the changes which have been made enabling the reviewers to access the notes more easily.

I have not shown the diagnostic and recurrent codes in graph form for 2017 so far since there are only 5 cases meaning that there is no significance with such low numbers.

### Section 2: Quarter 1 Mortality Report: April 2017 – June 2017

### 1) Statistical analysis of mortality:

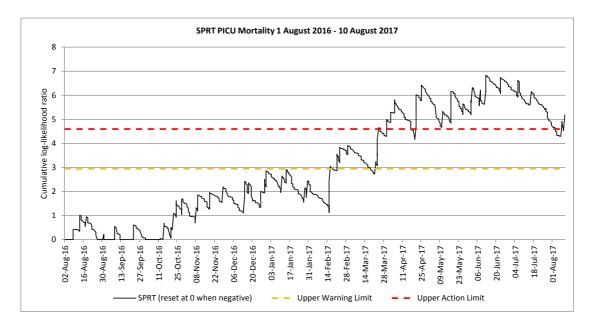

## a) Close to real time statistical analysis of mortality in PICU: CUSUM and SPRT

We use two methodologies for monitoring mortality in PICU – Cumulative Sum Chart (CUSUM) and Sequential Probability Ratio Test (SPRT) Charts. This report will show the SPRT charts as this shows an upper warning limit and an upper action limit to help identify whether mortality is occurring at a higher level than expected.

### Sequential Probability Ratio Test (SPRT)

SPRT tests the hypothesis that the odds of death in PICU has doubled against the alternate hypothesis that the odds of death has not doubled. The predicted mortality for PICU is given by the risk adjustment model the Paediatric Index of Mortality 3 (PIM3). Control limits are set to determine whether the hypothesis should be accepted or rejected.

Below is the SPRT chart for PICU for the period 1 August 2016 – 10 August 2017:

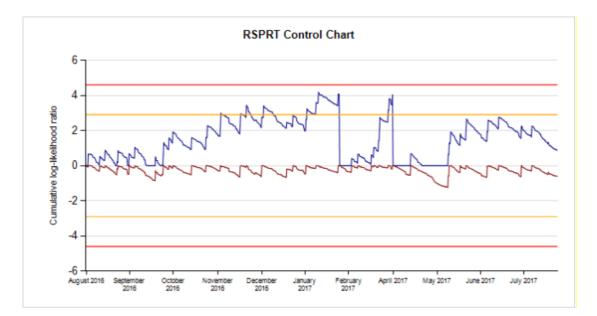

The SPRT chart is designed to test the two alternate hypotheses that the odds of death as doubled, and the odds of death as halved.

The x-axis plots each patient in sequence of discharge/death date; the y-axis plots the cumulative log likelihood ratio for doubling odds of death.

The line moves up for a death, and down for a survival, the extent of the shift up or down depends on the extent to which the outcome was unexpected. E.g. the death of a patient with a low probability of death has a larger shift upward than a death of a patient with a high probability of death. The graph resets at zero, ensuring that a period of good performance will not delay the recognition of a period of higher mortality. A warning limit and an action limit are added to the chart to help the user determine whether the mortality is deemed 'in control' or 'out of control'. Mortality is deemed 'out of control' if the odds of death have exceeded twice the odds of dying.

The SPRT chart above shows that mortality exceeded the upper action limit in March 2017 and again in April and August 2017. This suggests that mortality is occurring higher than expected, and the deaths should be investigated to determine whether they could have been prevented. PICU monitor the SPRT charts on a regular basis.

In the RSPRT (Risk-adjusted resetting probability ratio test) Plots present the mortality of your unit cumulatively, based on what is predicted by PIM2 score. Between the orange lines is a 'safe zone' with the variability you might expect day to day. Between the red lines at the top of the chart can be regarded as a 'warning zone'.

Until there is a death, the top line stays flat and the bottom line gradually drops. When a death occurs the top line moves up and the bottom line moves closer to zero. When either line touches the red line, the graph resets to zero.

This data is nationally validated because generated by PICANet.

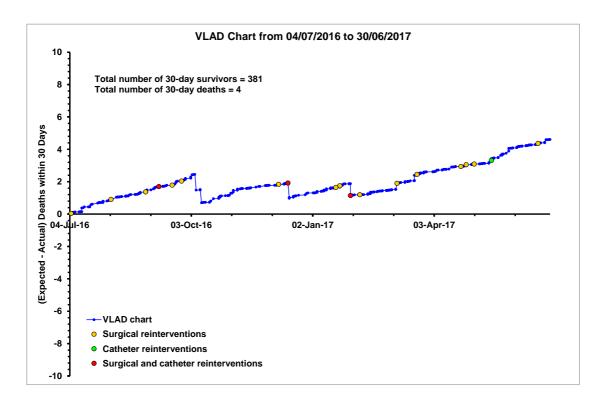

In the above RSPRT chart for Aug 2016 to July 2017- RSPRT resets in mid Jan + March 2017 but since April 2017 has remained in the 'safe zone'. All PICU deaths + RSPRT are discussed in the following month.

## b) Statistical analysis of mortality in Cardiac Surgery: PRAiS and VLAD charts

A risk adjustment model Partial Risk Adjustment in Surgery (PRAiS) has been developed to calculate the estimated risk of death within 30 days of a primary paediatric cardiac procedure in children under 16. The PRAiS model uses the risk factors including specific procedure, age, weight, diagnoses and comorbidities. The National Institute for Cardiovascular Outcomes Research (NICOR) will use this information to produce funnel charts comparing the Standardised Mortality Ratio (SMR) across centres.

The PRAiS risk model has also been used to develop variable life-adjusted display (VLAD) charts for each centre. VLAD charts display the cumulative difference between expected and observed mortality over time. The plotted line goes up for a survival and down for a death; for higher risk patients who survive the line is steeper than low risk survivals; for low risk deaths the line is steeper than deaths for high risk patients. If the outcomes are as expected the line will be close to zero. The line will rise less steeply for a run of survivals than it will decrease for a run of deaths. Re-interventions are displayed as circles on the plotted line. Monitoring of VLAD charts provides additional quality assurance.

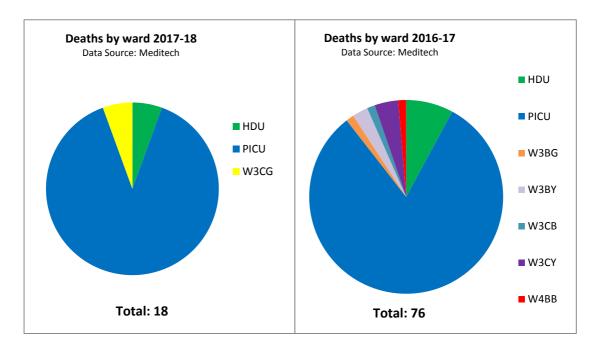

The VLAD chart above shows mortality is occurring lower than expected for the twelve months from July 2016 to June 2017. The survival rate at 30 days was 99.0% against an expected rate of 97.8%.

### 2) Real time monitoring of mortality

Mortality is now being monitored in real time and analysed by year, ward, specialty, deaths within 30 days from admission and over 30 days from admission.

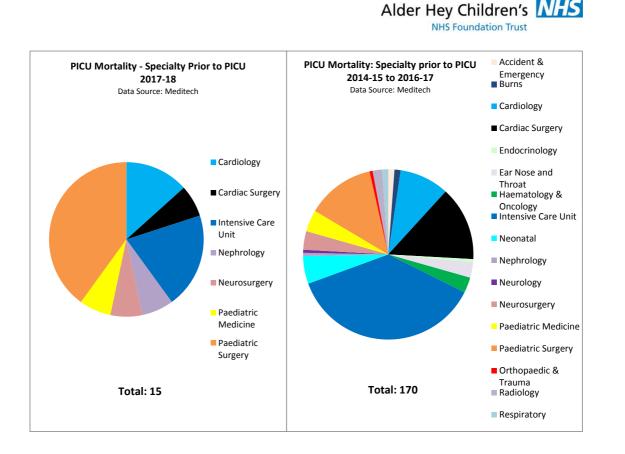

i) Below are the charts showing mortality by ward for 2017-18, and the previous year 2016-17.

The charts show the highest number of deaths occur in the PICU department. This enables observations of deaths in specific ward areas over time and thus identifies any potential unusual patterns, particularly in non PICU wards.

ii) Below are the charts showing mortality by specialty prior to PICU for 2017-18, and the previous 3 years 2014-15 to 2016-17.

11. Mortality Report Quarter 1 2017-18 v3.1

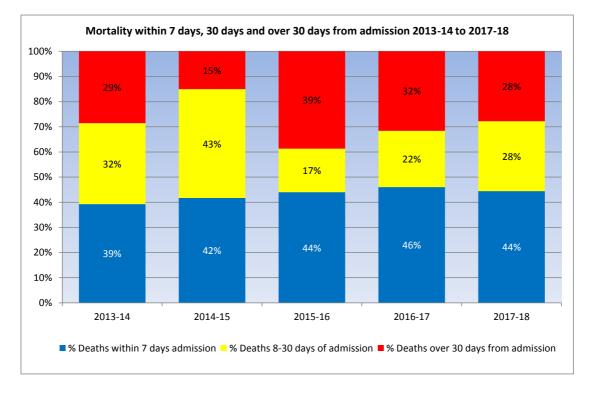

These charts show the breakdown of PICU deaths by the specialty the patient was under during their episode before admission onto PICU. A large number of patients were under PICU on their first episode.

For those whose first episode was not PICU, the largest number of patients had been under the specialties Paediatric Surgery, Cardiac Surgery and Cardiology. This provides an opportunity for looking at unusual trends within specialties.

iii) Below the chart shows mortality broken down by the time from admission to death, mortality within 7 days, 30 days and over 30 days from admission.

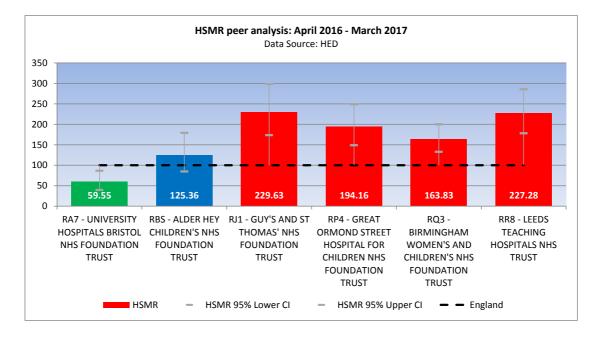

The chart shows that usually the highest percentage of deaths occurs within 7 days of admission, around 40-44% of deaths occur within this time frame. In the current year 44% occurred within 7 days of admission, 28% occurred within 8-30 days from admission, and 28% deaths occurred over 30 days from admission.

## 3. External Benchmarking

## a) Hospital Standardised Mortality Ratio (HSMR) – HED

HED allows the Trust to monitor and benchmark a number of hospital performance indicators including mortality. The HSMR is the ratio of the observed number of in-hospital deaths divided by the number that is expected, and is based on 56 diagnoses. Although the scores are based on a basket of diagnoses that are more commonly found in adults, it allows a comparison of the performance of Alder Hey against other Trusts.

The peer group Alder Hey will be assessed against are Trust's with a similar patient case mix. This is still a work in progress. On this occasion we have included Trusts with comprehensive children's services including cardiac surgery. Patients aged 0-17 years have been selected to ensure adults are excluded from the HSMR. All specialties are included; therefore those Trusts with Neonatal Units may have a higher relative risk of mortality than expected. The Trust with the closest profile to Alder Hey is Birmingham Children's Hospital. Guys and Leeds both have neonatal units. It is not clear what Bristol include in their submitted data.

The chart below compares HSMR for Alder Hey against its peers for the period April 2016 to March 2017.

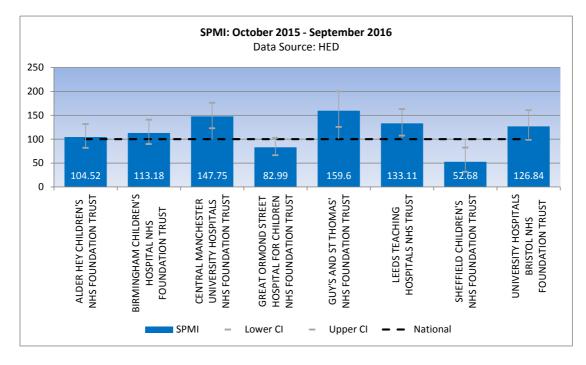

A figure of 100 means that the outcome is completely expected compared to England. A figure greater than 100 indicates the risk of the outcome is greater than expected. A figure less than 100 indicates the risk of the outcome is less than expected.

The above chart shows that the relative risk of mortality for Alder Hey was higher than expected compared to England, as were the peer group with the exception of University Hospitals Bristol NHS Foundation Trust.

HED has developed a Standardised Paediatric Mortality Index (SPMI); this is a paediatric specific ratio of the observed to expected in-hospital deaths (multiplied by 100). A value of greater than 100 indicates higher mortality level than the average NHS performance, and a value of less than 100 indicates lower mortality level. The expected deaths are calculated from logistic regression models with a case-mix of: age, sex, ethnicity, trust type, emergency surgery flag, chronic condition flag, paediatric risk category, paediatric life-limiting conditions flag and diagnosis group. Diagnosis groups where there are less than 10 death events are excluded from the model. Children up to and including the age of 15 are included. The model is available in pre-release and the most recent data available is for the period 1 October 2015 to 30 September 2016.

**NHS Foundation Trust** 

The chart shows that Alder Hey has a higher mortality level than the average NHS performance with 72 deaths against 68.9 expected deaths.

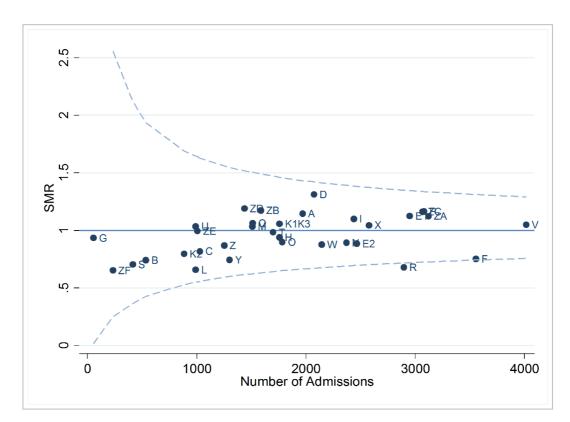

# b) External benchmarking against comparator organisations for specific patient groups in addition to HED.

As previously reported Alder Hey benchmarks externally for PICU (<u>http://www.picanet.org.uk/documentation.html</u>), congenital cardiac disease <u>http://nicor4.nicor.org.uk</u> and oncology.

## PICU

It is important to recognise that 85-90% of our deaths occur in PICU as in other children's trusts. In the most recent PICANet report (2016 Annual Report of the Paediatric Intensive Care Audit Network January 2013-December 2015), mortality is displayed in funnel plots. The Standardised Mortality Ratios (SMRs) for each organisation are plotted against the number of admissions. The risk adjusted SMR is the ratio of the observed number of deaths in the population against the expected number of deaths predicted by a recalibrated version of PIM2. Control limits are displayed on the funnel plots; variation within these limits is termed common-cause variation; variation outside of these limits is special-cause variation. Points above the upper control limit indicate higher than normal mortality; highlighting the need for further investigation into the mortality rate.

The chart below is taken from PICANet's most recent report, and shows the PICU SMRs by organisation with 99.9% control limits, 2013-2015: PIM2r adjusted.

The funnel plot above shows Alder Hey at point 'P'. The SMR for Alder Hey is within the control limits of the funnel plot, suggesting mortality is under control.

## Conclusions

This is a time of change for HMRG and we are trying to be proactive and improve the process and ensure that it is as robust as possible. The backlog of reviews will hopefully be completed in the near future with the support and hard work of the group.

There are 4 deaths that we identified as potentially avoidable of which 2 were factors outside the Trust and 2 within the organisation. There has been learning from the 2 deaths as both had RCA's and organisational changes have been made a result to try and prevent a reoccurrence.

It will be interesting to see the changes on the child mortality process that are going to be implemented nationally and then adapt our process further to meet the recommendations.

Statistical analysis of mortality using CUSUM and SPRT continue to be monitored, the action limit was exceeded in May and again in August suggesting mortality is higher than expected. This is monitored by the PICU team.

Alder Hey uses VLAD charts to monitor the trend in mortality in cardiac surgery; the latest chart shows observed mortality is lower than expected mortality. All cardiac surgery patient deaths will be reviewed in the Cardiac M&M meetings and also the HMRG.

Reports have been produced to allow real time monitoring of mortality. Deaths will be analysed by year, ward, and specialty, deaths within 7 days, 30 days and over 30 days from admission. There are no current indications of patterns of concern.

#### ALDER HEY IN THE PARK PROJECT

HIGHLIGHT REPORT		D	)ate:	: 04	/07/	17								Pe	riod	: Ju	ne 20	017							SRO: David Powell
Site & Park Development	Re	eport	t Nu	mber	:											11							Author: Sue Brown		Author: Sue Brown

Decommissioning & Demolition (Phase 1 & 2)																									Programme progressing on track and advance to demolish to M/N block now agreed as part of phase one. Top uppermost visiter ands staff car parking space has been reduced to allow handover of the space for demolition. No issues with dust have arisen , monitoring continues as per plan. The management plan is in place covering both : 1. demolition of retained estate; 2. R&E II construction, levels have remained safe todate.
Residential																									Community Engagment continues to progress in realtion to the scale of the scheme. once resolved the appointment of the prefferred bidder (Elect) will follow. Sir David henshaw has met with the prefferred bidder and subsequently met the local member of the council, number of dweeling under duicussion. Bidder working with LCC planners to ensure all consultation material is acceptable within the rules of the planning process to ensure that the final scheme has a high level of acceptance to all parties.Preffered bidder (elect) has submitted a planning pre-application.
Research & Education Phase II																									Research and Education phase II build remains on track, contract with Morgan Sindell for signiture. Space allocations and internal design of areas with Universities agreed. University have agreed to the commercials. EdgeHill have agreed payment mechanisms /installments and have requested a 60 year as opposed to the original 50 year lease, actual sign off of financial agreements expected to be complete by end of August.
Alder Centre																									On Track. Notification of the successful Bidder occurred at the July. LIBOR funding now recieved by the charity and agreement between and Trust and the charity has been signed off by J Grinnell. Dicussions in progress with the Appointed Architect and users to refine the design. Plan to go to tender for the contruction in September.
Park																									First forest school area built with school participation during June andJjuly , which was extremley successful. New partnership with Woodland Trust forged and acquisition of newly commissioned national monument for Springfield secured for Nov 17. pitch to B&Q successful on provision of materials and equipment but now major sponsorship of 2018 Chelsea flower. The Trust has registered for the Chelsea flower show 2018, now urgently seeking major sponsors.
International Design & Build Consultancy															T										Contract prepared and exchanged with XI'AN, contract documents and drawings being translated via china centre prior to commencment of the design review and agreement on a timeline. Jersey review, they have agreed on a £60k design review exercise with DP, discussions and weekly input over 3/4 months to the Jersey team, agreed.
Community/CAMHS ( Estates Strategy)																	T	T	Ι	T					Currently exploring and conducting a financial analysis of proposed developments and locations for Community services; Onsite Neurodevelopmental new build for Community Paediatrics and an offsite potential lease for CAMHS.
Corporate Offices/Clinical on-site																									Project now wrapped up in the whole estate strategy for the site. Strategy timeline agreed with the exectuive team, please see below.
On-site Residual																									Project now wrapped up in the whole estate strategy for the site.

Resource Impact:	Not applicable

# Emergency Preparedness, Resilience and Response (EPRR) Annual Report 2016/17

#### 1. Introduction:

As a provider organisation and Category 1 Emergency Responder, the Trust is required to fulfil relevant legal and contractual EPRR requirements including the Civil Contingencies Act (CCA) statutory requirements placed upon Category 1 responders and ensure a robust and sustainable 24/7 response to emergencies and disruptions.

This report identifies the work undertaken to ensure that the Trust is complaint with its legal and statutory requirements to meet the new EPRR framework and the CCA 2004. It outlines the Trust's state of readiness in responding to any emergency or disruptive event which may impact on service delivery.

It also sets the planning, training and exercising which have taken place during 2016/17 as well as Emergency Preparedness and Business Continuity priorities for 2017/18

A number of key areas of focus are contained within the report as follows:

- Responsibility and Accountability
- Planning
- Training and Exercising during 2016/17
- Response (events/incidents the Trust has responded to during 2016/17)
- Priorities for 2017/18

#### 2. Background:

Training and exercising initiatives relating to major incident planning and business continuity have taken place throughout 2016/17, identifying lessons learnt, areas of good practice and key actions. Training exercises have also provided the opportunity to work with partner organisations and provide assurance of the Trust's resilience and ability to respond in the face of risks that may threaten the delivery of services.

The Trust has an Emergency Preparedness Group (EPG) providing assurance to the Integrated Governance Committee on behalf of Trust Board. The EPG monitors the measures that are in place to ensure the continued delivery of Trust services.

Under the EPRR framework, the Trust is represented at the Local Health Resilience Partnership (LHRP) Strategic Group. In addition, the Trust is represented at the LHRP Practitioners Meeting, and other sub groups as and when requested.

The Trust has reviewed its major incident and business continuity Trust plans and continues to test these internally. Lessons learned from live incidents and exercises, self-assessment outcomes and external inspections will form priority plans for 2017/18.

#### 3. Responsibility and Accountability:

The Trust has an Accountable Emergency Officer (AEO) which is the Chief Nurse and the Emergency Preparedness Group EPG, has been chaired by senior managers from the risk management team. Since May 2017; the chair of the group is the Director of Nursing, who reports to the Chief Nurse.

The Trust Integrated Governance Committee receives an updated EPRR assurance report at each meeting.

#### 4. Assurance and Obligations Under the Civil Contingencies Act 2004:

In order to respond to the obligations under the Civil Contingencies Act 2004, the Trust has undertaken a number of emergency preparedness activities during 2016/17:

- Internal and External Exercises (please refer to Appendix A).
- The Trust completed the required self-assessment of the EPRR core standards to provide assurance of its resilience.
- Risks relating to emergency preparedness are included on the Trust Risk Register.
- Partnership working has taken place to ensure planning, exercising and responding is undertaken across organisations within the wider economy for example, local Trust attendance at internal desk top exercises, attendance at other local Trust exercises, and attendance at LHRP sub groups etc. On 23<sup>rd</sup> May 2018, the Trust will be taking part in a joint exercise with Whiston Hospital named 'Exercise Gemini'. The aim being to test the response to a major incident involving a large number of paediatric casualties including burn injured and trauma patients. The first planning meeting is scheduled for 27<sup>th</sup> July 2017.

#### 5. Emergency Preparedness Risks on the Risk Register:

A snapshot of these risks is included in **Appendix E**. The risks included are also linked to the Local Health Resilience Partnership Register, which in turn links to the Merseyside Resilience Forum Risk Register. These risks are monitored via the Emergency Preparedness Group and escalated to Integrated Governance Committee where required.

#### 6. Emergency Preparedness, Response and Resilience (EPRR):

The EPRR Core standards have been instigated since April 2013. These standards are underpinning requirements for NHS funded organisations and there is an expectation that as an NHS funded organisation, the Trust can demonstrate that plans are in place to manage and respond to a wide range of incidents and emergencies that could impact on service provision or patient care.

As part of the assurance process the Trust undertook a self-assessment against the EPRR Core Standards. Actions from the self-assessment have formed part of the emergency planning ongoing work programme.

For 2017/18, the Trust will be required to complete a self-assessment audit, for which the deep dive topic will relate to governance. The date for completion of the self-assessment will be early September 2017. This years self assessment will also involve peer review and NHS England visits to Major Trauma Centres, High Secure Mental Health facilities, High Level Insolation Units and Burns Centres. Further detail on this is awaited from NHS England.

#### 7. Planning:

The following plans and procedures have been updated and ratified and issued during 2016/17:

#### • Trust Major Incident Policy and Major Incident Command and Control Plan:

The Trust Major Incident Policy and Major Incident Command and Control Plan was updated and ratified on December 2016 with a review date of November 2017.

#### • Trust Business Continuity Policy and Business Continuity Plan:

The Business Continuity Plan and Policy was updated and ratified on 4<sup>th</sup> October 2016 and is due for renewal in September 2017.

#### • Ward and Department Local Business Continuity Plans:

A series of Business Continuity Scrutiny Group meetings were held during 2016/17 to produce to approve ward and department local business continuity plans. There now needs to be a programme of planned updates which will be developed and tested during 17/18 via the senior manager on call meetings. The Business Continuity Plan for Research Institute and the Nursery still requires approval and will be monitored via the Emergency Preparedness Group. The expected approval date will be 31/12/2017

#### • Heatwave Escalation Plan:

The Heatwave Plan is updated annually in line with information from Public Health England's national plans. Key learning for 2017/18 is ensuring plans are communicated out to staff, so they are briefed on the action they can take.

#### • Cold Weather Plan:

The Heatwave Plan is updated annually in line with information from Public Health England's national plans.

#### • Winter Plan:

The Trust Winter Plan was successfully produced ready for the start of winter on 1<sup>st</sup> October 2016, via a series of planning meetings. A 'learning from winter' meeting is scheduled for 17<sup>th</sup> July to review what went well and identify the lessons learned which can be taken forward into planning for 2017/18 winter.

#### • Mortuary Contingency Plan:

Work is underway to assess the requirements needed to set up an emergency mortuary in the event of an ongoing situation resulting in a large number of deaths e.g. pandemic flu. The Innovation Centre has been identified as the location to house an additional mortuary, however, further review is required to identify costings and write a plan to manage such an event. This is being taken forward by a mortuary working group.

#### 8. Training and Exercising:

#### • Major Incident/Business Continuity Training for all staff:

All staff are expected to complete a mandatory training workbook to receive an overview of emergency preparedness in the Trust. This occurs every 3 years. Action will be taken for 2017/18 to ensure major incident training is included on junior doctor induction.

#### Major Incident and Business Continuity Training for 1<sup>st</sup> and 2<sup>nd</sup> On Call Managers:

Refresher training was offered to 1<sup>st</sup> and 2<sup>nd</sup> On Call Managers in August and September 2016 and targeted update training is being provided for these staff along

with 304 Bleep Holders and 306 Bleep Holders during May to July 2017. This is referenced in the Emergency Preparedness work plan.

# • Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) One Day Training:

 Due to responding to winter pressures and then the retirement of the ED Consultant emergency planning lead, the one day CBRNE training day was not provided in 2016/7 In June 2017, an Emergency Department Clinical Lead for Emergency Preparedness was appointed and this will be a priority action to provide this training.

#### • Tests/Exercises:

The Trust has undertaken exercises to test plans and to build on lessons learnt during 2016/17. These are set out in Appendix A. Lessons learnt from these exercises have been built into the further development of plans, changes to action cards and updated business continuity plans.

#### 9. Response to Live Incidents:

The events/incidents the Trust has responded to during 2016/17 are described in **Appendix B**.

#### 10. Action Plan for 2017/18:

Based on the information and activities described in this annual report, the key emergency planning and business continuity priorities for the Trust in 2017/18 are outlined in **Appendix C**.

The EPRR workplan will reflect priorities identified for 2017/18, which will be monitored via the Emergency Preparedness Group (quarterly), the Integrated Governance Committee (every two months) and the Trust Board annually via this annual report.

#### 11. EPRR Timetable for 2017/18:

This year an annual EPPR timetable has been developed to monitor and achieve the key emergency preparedness actions for the whole year. This is included as **Appendix D**.

Appendix A

13.2 Appendix A Emergency

#### EXERCISES/BRIEFINGS UNDERTAKEN IN 2016/17

Exercise Date	Exercise Name/Details	Туре	Description	Lessons Learned	Action Required (referenced in work plan)
05/07/16	Major Incident Cascade Test	Live	To ensure those listed on the major incident cascade list answered.	Despite having some of the people on the cascade system on an emergency bleep group, it can still take up to 15 minutes to cascade the message to everyone.	Investigate costings for automated cascade system separate to the Trust systems
07/07/16	Loggist Refresher Training provided by Head of Emergency Preparedness, NHS England	Presentation	To brief the Trust loggists on the principles of logging	Loggists need to take part in more exercises to keep their skills up to date.	On 28 <sup>th</sup> and 29 <sup>th</sup> June 2017, the Trust Emergency Preparedness Manager attended a 2 day loggist 'Train the Trainer' session in Leeds, provided by Public Health England (PHE) and can now provide a 1 day loggist training session. This will be an action taken forward for 2017/18.
09/09/16	Emergency Preparedness JCC Awareness Meeting	Seminar	To brief local organisations on the emergency preparedness arrangements in place	Not applicable – refresher information only	Not applicable
28/09/17	Nurse Induction Major Incident and Business Continuity Briefing	Presentation	To brief the nurses on major incident and business continuity arrangements in place	Not applicable	Not applicable

13.2 Appendix A Emergency

Exercise Date	Exercise Name/Details	Туре	Description	Lessons Learned	Action Required (referenced in work plan)
03/10/17	Exercise Responder including major incident cascade test	Live and Desktop Exercise	For this exercise, everyone on the major incident cascade was contacted and asked to collect their tabard. Strategic and Tactical Commanders conducted a desktop exercise to consider how their command rooms would be activated and the associated action they would need to take.	<ul> <li>Major Incident Declarations to be approved by Chief Operating Officer</li> <li>Updated major incident cascade contact numbers</li> <li>All tabards now stored in the Emergency Department, rather than Strategic command keeping their own</li> <li>Agreed to have one tactical command room (ED Seminar Room) for any type of major incident, rather than two, to avoid any confusion. For a business continuity incident, an alternative room can be used if more appropriate</li> </ul>	Major Incident & Business Continuity SOP developed for Strategic Commander and Tactical Commander A plan to manage parents and carers in the event of a mass casualty incident needs to be developed further. A group of staff have been identified to take this forward.

Exercise Date	Exercise Name/Details	Туре	Description	Lessons Learned	Action Required (referenced in work plan)
12/10/17	Decontamination Train the Trainer Session	Desktop and Practical	The Emergency Department nurse lead for emergency preparedness who is trained to train staff on decontamination and CBRNE principles, attended this session, along with the Trust Emergency Preparedness Manager who attended for information.	The 1 day CBRNE training day needs to be reinstated.	The ED Nurse Lead is now the appointed clinical lead for Emergency Preparedness and will take forward the learning from this training when conducting the CBRNE staff training sessions.
20/10/17	On Call Desktop Exercise: Worst Case Escalation Scenario	Desktop	On Call staff, along with some of the 304 and 306 Bleep holders attended this desktop session to consider the action they would take when responding to a worst case capacity/ escalation situation in the hospital.	It allowed staff to consider areas where patients could be located whilst maintaining patient safety in line with Trust escalation plan and winter plan.	This information was reflected in the Trust escalation plan

13.2 Appendix A Emergency

Exercise Date	Exercise Name/Details	Туре	Description	Lessons Learned	Action Required (referenced in work plan)
16/12/17	Exercise Leo, Critical Care Fire Evacuation Exercise	Live Exercise using mannikins	The Critical Care Ward took part in a fire evacuation exercise using 2 mannikins to evacuate out of the ward area.	<ul> <li>The Fire Team Leader acting in the exercise reported they were not clear on their role</li> <li>At the debrief, it was confirmed that a fire drill programme was required</li> <li>During the exercise, one of the patients was moved into the same fire zone and it was identified that patients should be evacuated out of the zone</li> <li>Critical care identified that additional equipment was needed to support evacuation e.g. ambu bags, sealed emergency boxes, helipad arrangements, management of oxygen and ventilation and this would be reflected in the evacuation plan</li> </ul>	<ul> <li>Fire Team Leader action card and Fire Team Leader training was developed to ensure Fire Team Leaders understood their role</li> <li>A scheduled programme of fire drills was developed by the Fire Safety Advisor, however, the Fire Safety Advisor left the Trust and this programme of drills did stall, however, has been restarted in July 2017,</li> <li>Critical Care Fire Evacuation plan was updated, based on learning</li> </ul>
18/01/17	Trauma Conference – Major Trauma Network and Response to Mass Casualty Event	Seminar	The Emergency Preparedness Manager attended this Seminar which was led by Dr Chris Moran, National Clinical Director for Trauma	It was agreed a list of critical supplies that would run out quickly in the event of a mass casualty incident would be developed by each Trust and sent through to Dr Chris Moran.	Development of this list is progressing. Next step is to liaise with the national supply chain coordinator for further advice.

Exercise Date	Exercise Name/Details	Туре	Description	Lessons Learned	Action Required (referenced in work plan)
31/01/17	Fire Team Leader Desktop Training Exercise	Desktop Exercise	At the on call meeting, the Fire Safety Advisor conducted a desktop exercise for the Fire Team Leaders to respond to, using the newly introduced Fire Team Leader action card	The Fire Team Leaders found the session helpful in being able to respond with the Fire Team in a fire call situation. There were still issues regarding ensuring the fire team attend the concierge desk to move as a team in a timely manner and learning from each incident is being monitored by the Acting Fire Safety Manager via incident form reporting.	Short debrief meetings are held immediately after each debrief meeting to identify what went well and any key learning points

#### RESPONSE TO MAJOR INCIDENT DECLARATIONS OR BUSINESS CONTINUITY INCIDENTS IN THE TRUST DURING 2016/17

Event/Incident	Description	Lessons Learned	Action Required/Completed (Referenced in Work Plan)
Feb 13 <sup>th</sup> and April 2016	Renal Unit Power Failure	Renal Unit identified that their business continuity plan required further update	Renal Unit updated their business continuity plan
19 <sup>th</sup> March 2016 11 <sup>th</sup> June 2016 19 <sup>th</sup> March 2017	Lift Failure	<ul> <li>There has been a series of lift failures in the Trust which continue to occur, due to either a gap in power, causing the lifts to fail or due to a part being required by Schindler, the lift supplier.</li> <li>Events have also occurred since April 2017 where a lift car was trapped between floors (in this case, 2 metres). Interserve were able to open the internal door slightly to insert oxygen tubing to the patient trapped in the lift. Interserve had to wait for Schindler to attend site as the lift doors couldn't be released due to a significant mechanical failure. If emergency care needed to provided to the patient, there is a lift hatch situated on the roof of the lift, behind the ceiling. However, if there is a bed in the</li> </ul>	The Health and Safety Team are reviewing the lift specifications to identify current position and action required to ensure safety is maintained. There is also a lift entrapment procedure/contingency plan which will be reviewed to consider action that can be taken if all the lifts fail in the car park, which has also occurred recently.
		lift, the ceiling cannot be brought down because there wouldn't be enough room.	
6 <sup>th</sup> April 2016 and 26-27 <sup>th</sup> April 2016	Junior doctor strike action	Contingency planning meetings were held and a contingency document was produced containing key contact numbers for staff covering bleeps. This worked effectively.	Not applicable

	A N
Action Required/Completed (Referenced in Work Plan)	endi ency
e response times for fridge faults uire review along with reviewing tingency arrangements for armacy and Pathology fridges. A ort is now available confirming on that can be taken to improve	13.2 Appe Emerge
lience on the pharmacy fridges a further incident occurred on May when the Pharmacy cold re reduced in temperature past minimum set point. This also uires review for the Pathology	

			(Referenced in Work Plan)
29 <sup>th</sup> April 2016 and 30 <sup>th</sup> November into December 2016	Fridge Failures affecting Pathology or Pharmacy	On 29 <sup>th</sup> April, the fridge freezers failed for Pathology and Catering and Pharmacy fridges continued to work. This was due to a power pack failure which supports the compressors for the fridges and walk in freezers in lower ground catering, and Pathology. The systems have been built with no resilience behind them and therefore. Pathology were of the understanding that the walk in fridges would be on a separate system and this hasn't been the case. Pharmacy experienced a fridge failure on 30 <sup>th</sup> November. On Wednesday 7 <sup>th</sup> and 8 <sup>th</sup> December, Pathology's fridges were also affected.	The response times for fridge faults require review along with reviewing contingency arrangements for Pharmacy and Pathology fridges. A report is now available confirming action that can be taken to improve resilience on the pharmacy fridges as a further incident occurred on 18 <sup>th</sup> May when the Pharmacy cold store reduced in temperature past its minimum set point. This also requires review for the Pathology fridges.
6 <sup>th</sup> June 2016	Air Conditioning Unit Failure	There have been two incidents affecting the air conditioning unit/chillers in the hospital. The latest incident was on 21 <sup>st</sup> June 2017 and also 22 <sup>nd</sup> June 2017. The cause of both incidents still needs to be confirmed.	A Business Continuity Action card will be developed to ensure it is clear on the impact to the hospital when the chillers fail and the action that needs to be taken, particularly in Pharmacy, Pathology, Theatres and IM&T
22 <sup>nd</sup> June 2016	Official Opening of Alder Hey Hospital	The hospital was officially opened by the Queen and Prince Philip. Strategic and Tactical Command was set up on the day and a planning group was established well in advance of the event and the day ran very smoothly.	A fire procedure for the Atrium was also developed for use when managing large events happening in the hospital.
26 <sup>th</sup> June 2016	Telephone and bleep system failure	Telephone and bleep system failure occurred, however, there are business continuity action cards in place to respond to this.	Not applicable
21 <sup>st</sup> August 2016	Power failure in the main server building on the interim estate (NADRA Building)	The cause of the power failure was due to a failed UPS. It tripped the breaker which caused power disruption to the IT services provided from this location.	The IT services from this location have since been moved.

Lessons Learned

**Event/Incident** 

Description

12

Event/Incident	Description	Lessons Learned	Action Required/Completed (Referenced in Work Plan)
September 2016	CT Scanner Failure	A business continuity action card was required.	A CT Scanner Failure business continuity action card has since been developed by the Radiology Manager and needs to be reflected in the Radiology Business Continuity Plan.
7 <sup>th</sup> October 2016	Generator Switchover Failure	The DMC unit failed to respond, which could be considered freezing in computer terms. The switching by the DMC unit was tried again without success. This led to the system being left running in generator mode from 4.00pm on 7 <sup>th</sup> October until 7.30am the following day.	Interserve and Building Services have investigated the situation and there have been no further incidents reported. No further action taken.
18 <sup>th</sup> November 2016	Research Institute Fire	At 11:45 a.m. on Friday 18 <sup>th</sup> November, there was a small fire in the Research Institute. Staff evacuated the building to the designated assembly point and the Fire Team responded. An electrical isolator, fed by direct current had not been supplied with a breaker device. It was connected to cabling run from ceiling height to isolator switch vi an electrical cable encased in Copex type conduit. The coped conduit had been contaminated with rainwaiter and over time, the water penetrated and built up in the Copex. The water and live electrical feed was the probable cause for the fire.	A report was produced by the Acting Fire Safety Advisor who recommended a full inspection of electrical installations in plant rooms should be carried out; ensuring required IP65 is maintained. Also ensuring access to plant room keys are always accessible to the interim estate fire team as the reactive maintenance engineer is not always on site. This will be monitored by the Fire Working Group.
23 <sup>rd</sup> November 2016	Incorrect Fire Location Displayed on Switchboard Room Panel	<ul> <li>18:00 hrs, fire alarm activated</li> <li>Bleep message sent out from switchboard "WC Patient AM Second Floor"</li> <li>The actual incident was in Outpatient Department, Second Floor</li> <li>It was confirmed that the switchboard fire panel does not always display the correct information. The Hercules Fire Panel in security displays accurate information. It is the role of the Security Guard to meet the fire team at the concierge desk and direct the fire team to the location of the Fire.</li> </ul>	It was considered whether or not to move the Hercules fire panel to switchboard or provide them with a Hercules system in addition to the one based in security. This has suggestion has not been finalised and will be taken forward by the Fire Team working group.

Event/Incident	Description	Lessons Learned	Action Required/Completed (Referenced in Work Plan)
1 <sup>st</sup> December 2016	Christmas Light Switch On including CBeebies and CBBC on site	This event was managed by a planning group with strategic and tactical command set up. The event ran smoothly and a debrief meeting was held following the event. It was identified that volunteers who were placed on the balconies mightn't have needed to stay there as long as they did, during quiet period. It was agreed that the group would plan for the worst, but stand down volunteers during the events if areas weren't busy.	Continue with planning group meetings for future events
26 <sup>th</sup> January 2017	Fire alarm activation 3 times in Pharmacy	A root cause analysis report was produced by the Acting Fire Safety Manager and the learning from this is being reviewed by the Fire Safety Working Group.	Fire Safety Group to review learning and recommendations from the root cause analysis report
3 <sup>rd</sup> February 2017	Neonatal Unit Light Failure	The light failure affected the Neonatal Unit cubicles 21,22,23 and 24. A business continuity action card requires development to confirm how temporary lighting will be provided and how this can be made readily available.	Produce a Trust business continuity action card for ward/department light failure
23 <sup>rd</sup> February 2017	Storm Doris	The very strong winds on this day, resulted in part of the roof on the interim estate blowing away on the ground below. The Health and Safety Team responded and ensured staff were not able to walk near the unstable roof. It was identified that when very strong winds are predicted, it would be useful to set up a command team during the high risk weather period, where incidents can be reported to, monitored and managed.	Set up a command team when extreme weather is expected
16 <sup>th</sup> March 2017	Endoscopy AER Failure	The AER compressor failed. A new compressor was installed on 15 <sup>th</sup> March 2017. However, the compressor was not installed correctly with filters on it and the compressor was not a medical grade. Therefore, the AER could not be used. The single biggest impact was the need to cancel up to 27 elective cases on 16 <sup>th</sup> March and subsequent cancellations up to and including 22 <sup>nd</sup> March.	The unit is to develop a business continuity action card in the event of a loss of this nature.

Appendix C

#### **EMERGENCY PREPAREDNESS KEY WORKPLAN FOR 2017/18**

Action	Action Lead	Expected completion
		date
Update and approve the Trust Hospital Escalation Plan (management of patient flow and capacity in the hospital)	Head of Performance and Planning/Emergency Preparedness Manager	21/07/17
Ratify Bomb Threat Plan	Security Manager/Emergency Preparedness Manager	24/07/17
Review lift specifications in relation to responding to patients trapped in the lift	Health & Safety Manager	August 2017
Attend Junior Doctor mandatory training to provide presentation on major incident arrangements. Attendance is monitored by the training and development team	ED Clinical Lead for Emergency Preparedness/ Emergency Preparedness Manager	August 2017
Update Flu Plan	Emergency Preparedness Manager/DIPC	09/08/17 Infection control meeting
Complete mass casualty (terrorism) exercise	Emergency Preparedness Manager/ED Clinical Lead for emergency planning/ED Consultant – Trauma Lead	21/08/17
Finalise mass casualty stocks list to support mass casualty arrangements. Next step is to liaise with national supply chain coordinator for further advice	Trauma Lead/Emergency Preparedness Manager/ Purchasing Manager	31/08/17
Re-establish CBRNE Decontamination training for staff (carried over from last year)	ED Clinical Lead for Emergency Preparedness	31/08/17
Set up programme for refreshing local ward and department Business Continuity Plans	Emergency Preparedness Manager supported by Local Business Continuity Plan Leads	31/08/17
Update Evacuation Plan to include whole hospital evacuation patient collection points and method for communicating/ coordinating whole hospital evacuation (carried over from last year)	Evacuation Plan Working Group led by Emergency Preparedness Manager	Update at September EPG, ratify at December EPG
<ul> <li>Update/approve the following business continuity action cards:</li> <li>a) Pharmacy and Pathology Fridge/Freezer Contingency Action Card (action lead Chief Pharmacist/Pathology Clinical Director)</li> <li>b) Trust Chiller Failure Action Card (action lead Interserve, Building Services, Emergency Preparedness Manager)</li> <li>c) Lighting Failure Action card (action lead Interserve, Building Services, Emergency Preparedness Manager)</li> <li>d) AER Scope Unit Action Card (action lead: Theatre Clinical Lead(s)</li> </ul>	Chief Pharmacist and Pathology Clinical Director and Paul Newland	31/10/17

Action	Action Lead	Expected completion date
Produce plan for managing parents and carers whose children have been involved in a mass casualty major incident. This will be approved by the Emergency Preparedness Group. Where will this be approved	Emergency Preparedness Manager supported by Parents and Carers Working Group	31/10/17
Provide 1 day loggist training sessions, monitor attendance etc	Emergency Preparedness Manager	31/10/17
Investigate costings for automated cascade system separate to the Trust systems	Emergency Preparedness Manager	31/10/17
Update Large Scale Major Burns Plan	Burns Consultant Lead, Burns Ward Manager, Emergency Preparedness Manager	31/10/17
Set up arrangements and produce plan for a contingency mortuary in the event of an ongoing situation resulting in a large number of deaths e.g. Pandemic flu (NHS England directive – carried over from last year)	Mortuary Manager with support from working group	31/12/17
Fire Safety Group to review root cause analysis reports produced from recent fire related incidents	Acting Fire Safety Manager/Building Services Lead	30/09/17
Review risks on the Emergency Preparedness Risk Register	Emergency Preparedness Manager	30/09/17
Complete 3 stage 'Exercise in the Dark' electricity contingency testing	Interserve/Building Services/Emergency Preparedness Manager	31/03/18

Appendix D

#### Emergency Preparedness Risk Register

Alder Hey Children's NHS Foundation Trust

Risk Register Summary of open risks for @ 14/07/2017, in order of current risk rating						
Title	Owner	Risk Rating	Key controls in place	O/s actions to reach target	Progress Since Last Review	Last Review Next Review
Influenza type disease (LHRP Risk ID H23) is past its review date with aim to submit it to Infectior Control Committee on 9th August 2017		5x3 5x2	Pandemic Flu Plan is available, however it is past its review date and requires review and re-approval.	Updated pandemic flu plan in liaison with Infection Control Team to include actin cards	Meeting scheduled with DIPC for 07/07/17 to review the plan and confirm updates required. Aim is for plan to be submitted to the August 2017 Infection Control Committee.	14/07/2017 21/07/2017
Mass casualty response requires testing including confirming the Trust has systems in place for adequate stock/supply arrangements in a mass casualty situation (LHRP Risk Register Ref 1)	Elaine Menarry	4x3 3x2	arrangements for mass casualty incidents.	quickly in a mass casualty incident and liaise with NHS Supplies to review arrangements Finalise exercise scenario for mass casualty exercise on 21/08/17	Supplies to review arrangements	14/07/2017 13/08/2017
Short term or long term (> 72 hours) loss of mains electrical power to hospita site (LHRP Risk Register 8 and 9). Exercise Black start' testing is overdue.	-	5x2 4x2	Local Business Continuity Plans including action card for power failure. Electrical standards for NHS healthcare electrical installations is detailed in HTM 06 01 and HTM 06 02 2 electrical mains supply, if one fails, the other mains takes the load. If both mains fail the generator will activate, while the Uninterruptable Power Supply (UPS) will support the 17 second break in power. If the generators did not activate, the UPS would support the 17 second break in power. If the generators did not activate, the UPS would support critical equipment for a limited period of time. Following this, critical equipment battery back up would be available, again for a limited period of time. UPS stage 1 testing taken place in Pathology and Theatres. Ward 1C to be tested on 18/07/17	Complete 'Exercise in the Dark' testing (3 stage process testing UPS, one primary mains supply failure and then both mains 'supply failure to test generator provision) Flag risk to IGC - July 2017	The Trust is still at Stage 1. Remaining areas for testing are the Emergency Department and EDU(provisional testing date of 18/07/17), IM&T and Critical Care. Chaser email will be sent to identify date for testing.	14/07/2017 13/08/2017

				Set up Evacuation Plan Working Group	Evacuation Plan Working Group meeting held on 22/65/17 to start looking at options for whole hospital evacuation. Options to be considered and reflected in a plan for submission to the next EPG meeting in September 2017	
Additional Mortuary capacity contingency arrangements (LHRP Risk Register H23 and H24)	Elaine Menarry		Emergency overflow is currently dealt with in accordance with the Merseyside NHS Mortuary Capacity and Escalation Policy supports the Merseyside Resilience Forum's Extra Deaths Plan.		Costings have arrived from the potential provider of temporary storage - to be submitted to COO for consideration once reviewed with Mortuary Manager. Location identified for emergency mortuary in the Innovation Centre.	03/07/2017 01/10/2017

NHS Foundation Trust

# Board of Directors 5<sup>th</sup> September 2017

Report of:	Director of Human Resources & Organisational Development
Paper Prepared by:	Director of Human Resources & Organisational Development
Subject/Title:	People Strategy Update for July 2017
Background Papers:	n/a
Purpose of Paper:	To present to the Board monthly update of activity for noting and/or discussion.
Action/Decision Required:	The Committee is asked to note the contents of the report.
Link to: Trust's Strategic Direction Strategic Objectives	The Best People Doing their Best Work
Resource Impact:	None

# **Section 1 - Engagement**

# That we build on Alder Hey's strengths to further develop a culture that focuses on quality and the continuous improvement of the service that we provide to patients.

#### Reward & Recognition

In response to staff feedback, the new monthly 'Star Awards' were launched 1<sup>st</sup> August 2017, a Trust wide employee/team of the month award. The first winner will be announced mid-September, and are both nominated by, and voted for, by colleagues from across the organisation.

An LiA 'Reward and Recognition' group has been established with various staff representatives in attendance, in which a number of incentives have been discussed and agreed, specifically a quick fix in producing "thank you" cards which management can distribute to staff members as required. Other options are continuing to be reviewed by the members such as the implementation of an "Appreciation Week" for staff in October 17.

#### Staff Survey

Preparation is underway for the launch of the 2017 Staff Survey in late September 2017. A Strategy Group has been set up to maximise response rates, and ensure a robust communication and engagement plan to acting upon the survey results when they are returned in the new year. Local conversations about the most recent survey results are continuing across the organisation.

# Section 2 - Availability of key skills

That we always have the right people, with the right skills and knowledge, in the right place, at the right time.

#### Trust Nursery

The recent Nursery consultation has concluded with one facilities post at risk. The post holder has been found a redeployment post and is currently undertaking a 4 week trial.

#### Hotel Services

Consideration is being given to an independent Cleaning Review report which has assessed the current domestics operation within the Trust and proposed a number of actions to potentially be implemented, of which initial informal discussions commenced in December 2016 with both Trust staffside and union regional officials. Formal consultation on the initial phase of review, that of the domestic supervisors commenced on 4 January 2017 for 30 days and concluded on 3 February 2017. As a result, a selection process was undertaken to new domestic supervisory roles of which 4 existing staff were successful and the remaining 4 staff who were unsuccessful were placed at risk of redundancy with notice provided up to 12 May 2017 and options of redeployment considered. Three of the unsuccessful staff were made redundant and the fourth member has been engaged in a lower banded role with pay protection. Two former domestic supervisors subsequently appealed against the outcome and Executive Appeal panels were arranged during August 2017, although one individual has now withdrawn her appeal.

Domestics and Portering staff (Portering and Portering Supervisors) organisational change programmes were initiated on 9 June 2017 which consisted of proposed reductions of staff (portering Supervisors) and review of shift patterns/rotas in the other groups. The three consultations were due to conclude on 24 July 2017. A number of issues were raised by staff and staffside during the consultation in each of the staffing groups and further investigation is being undertaken by management requiring an extension to each of the consultations until 25<sup>th</sup> August 2017.

#### Pathology (Phlebotomy) contract with Liverpool Women's NHS Foundation Trust

An organisational change process commenced in May 2017 as discussions had concluded in relation to the cessation of arrangements at Liverpool Women's Hospital (LWH) for phlebotomy services provided by Alder Hey. The impact of the potential change affected 4 Alder Hey staff who were to potentially 'TUPE' to LWH. A management proposal paper which set out the changes has been shared with staff side and staff. There was sufficient budget and vacancies within the service to enable this move back into Outpatients dept. The impact to staff affected would result in changes to base and reductions in weekend shifts, which would result in short term pay protections. The staff affected have now chosen to transfer back to Alder Hey into the roles available from 1 June 2017 with pay protection (as applicable). One member of staff has subsequently appealed against the outcome directly related to pay protection. This appeal has been initially considered by line management and declined and is scheduled for a final appeal meeting during September 2017 with senior Divisional Management.

#### Home Care Service – Community Division

An Organisational Change is in progress within the Home Care team for the following reasons: natural expiry of packages, progression of packages into adult services and having no further expansion of packages within the service since Nov 2016 commissioned by the CCG. This has resulted in seven band 3 HCA staff being effected as displaced, four of whom area already displaced and are working temporarily within the Trust covering for agency, bank etc. These staff have been placed on the Trust's redeployment register and it is hoped that suitable alternative positions can be sort. A briefing paper has been submitted to Staff Side and signed off by Senior Management and formal consultations are in progress.

Formal consultation has been concluded with no additional comments from either staff or staff side, the final consultation paper is pending official sign off. In the duration, all staff affected have been allocated alternatives roles and are either currently undertaking trails or have completed and been accepted.

#### **Community Nursing Review – Community Division**

Community Division has assigned Michelle Smith, external consultant to review nursing services within the Community with a view to assemble a remodelled Children's Community Nursing Service creating a more streamlined pathway, which takes account of staff and services, including those recently transferred from LCH. The Community Management team have approved the briefing paper and staff side/unions have been informed. Duties have been realigned to the new model are to be reviewed via AFC panel but it is not anticipated that bandings will change. Consultation commences in July and expected to end early September.

## Education, Learning and Development

#### Apprenticeships

An external quality inspection of the vocational / apprenticeship qualification centre was undertaken on 22<sup>nd</sup> June 2017. We received the highest rating of grade 1 across all areas. The first cohort of internally delivered apprenticeship qualifications for our existing staff will commence in October 2017 with Healthcare support and Team Leading. Work is still ongoing to develop this qualification portfolio further with Blackburn House to ensure the apprenticeship strategy remains on track. A discussion paper on apprenticeship pay in the NHS has been prepared as there is no national or regional policy. This will be presented to JCNC. The recruitment to vacancies, where appropriate to do so with apprentices, can commence once this has been agreed.

Alder Hey have commenced discussions with other C&M specialist trusts regarding commissioning education programmes for our apprentices as this will no longer be the function of HEE at local level. This will give the C&M region the ability to identify common themes for each sector and/or geography and enable effective procurement at scale against workforce demands. Together, we will then be in a position to negotiate a placement tariff should this no longer come to us via the Learning and Development Agreement.

#### CPD

The Trust has now been informed that we will receive a flexible cash allocation of £49K to support post registration learning activity in quarter 2. As the PDR window has now closed, all professional leads and managers have been asked to submit their requirements in order to prioritise allocation of funding.

# Section 3 - Structure & Systems

That we have a best in class HR processes, policies and collective bargaining arrangements that deliver on the things that are important to the Trust

#### **Employee Relations Activity**

By the end of May the Trust has experienced a significant increase in ER activity across the whole business (from 3 cases to 18 cases) These were 5 formal disciplinary cases, 4 formal Bullying and Harassment cases (1 case has moved to informal mediation stage at the staff requests), 5 formal grievances, and 4 Employment Tribunal (ET) cases. In addition there are 4 final absence dismissal cases and 3 formal capability cases.

#### **Employment Tribunal Cases**

- An ET Claim relating to unfair dismissal and unlawful deductions of wages is to be heard on 30 and 31 August.
- An ET Claim relating to unlawful deduction of wages and breaches of the Agency Workers Regulations was received and the hearing was due to be heard on 7 and 8 June 2017, but has been postponed to allow for inclusion of an additional respondent.

- A ET claim following a failed ACAS resolution has been received for a 4 day hearing in February 2018 claiming disability discrimination. The Trust disputes all claims in full.
- The Trust has had three ACAS conciliation approaches in relation to three separate cases. The HR team have discussed the cases with ACAS who have confirmed that the Trust appear to have concluded the issues within normal standards and therefore were closing the cases, although the individuals do have the right to make application to Employment Tribunals. No such applications have been received at this stage which relate to contractual changes that took place on 12<sup>th</sup> May 2017.

#### **Corporate Report**

The HR KPIs in the July Corporate Report are:

- Sickness has increased slightly to 5%
- Corporate Induction has increased to 100% compliance
- PDR compliance has increased to 79%
- Mandatory training compliance has remained the same at 76%

Actions to address shortfalls are being addressed by members of the HR & L&D team with the CBU management teams. Ongoing ESR training and support has been provided to managers by the HR Team to ensure accuracy in recording.

#### Enhancements to ESR

The HR team have been continuing to work on developments in ESR the roll out of the ESR portal is progressing well- 1734 paper payslips will go electronic by August payday.

The training on the ESR app has been well received and bespoke sessions have also been held across depts. Step by step guides have also been provided to managers and staff with many opting to follow the guides as opposed to full training, as they have found it very easy to access and use. To date the app and process has been well received amongst managers and staff.

Further roll out of the portal and Manager Self Service will provide managers with a more user friendly platform for accessing their workforce data.

The Trust has also been undertaking a comprehensive data cleanse of position based competences and their alignment to job roles.

As a result of this a full training matrix was revised to ensure that that the appropriate competences are aligned to positions correctly, which has now been captured in ESR. This has enabled the HR &OD team to run more accurate reports through BI.

#### **Regional Programmes**

Alder Hey is involved in a number of regional workforce projects, such as the North West Streamlining programme (ensuring processes and systems around recruitment, training, employment are maximised) and the Collaborative Bank project (to create a flexible workforce which could be deployed across the region).

#### **Streamlining Mandatory Training**

A piece of work has recently been undertaken to align clinical and non-clinical mandatory classroom training to make it easier for staff to schedule attendance. This will roll out in September 2017.

# Section 4 - Health & Wellbeing

That all Trust employees feel valued and respected by the organisation and actively contribute to the organisation's success.

#### **Team Prevent**

A Health Trainer is now working with the Trust providing stress management and relaxation/mindfulness training. These sessions have proved popular and will be scheduled and promoted accordingly. A session is being planned for management training in respect of how to recognise signs of stress with strategies on how to manage it.

#### **Nursery Benefits**

From September 2017, the Trust nursery will be implementing the new government offer of 30 hours free childcare per week. This initiative has been welcomed by all of our nursery users, and it will financially benefit a significant number of our staff who currently use the nursery.

#### Leading in Equality & Diversity

The second Listening into Action 'Big Conversation' for BME staff was a great success, the group continue with their actions to progress the BME network. A further Disability Network has been launched utilising the LIA methodology. A progress report on actions to date has been reported to WOD Committee.

#### **BOARD OF DIRECTORS**

#### 5<sup>th</sup> September 2017

#### Workforce & Organisational Development Committee (WOD) – Chairs Note

#### 1. Purpose of the Report

The purpose of this report is to update the Board on the key issues raised at the WOD Committee held in June 2017.

#### 2. Key Issues

The following issues were raised and discussed at the Workforce & Organisational Development Committee on the 21<sup>st</sup> June 2017; the minutes of the meeting will be submitted to the September 2017 Board for noting.

- The Committee received the draft Workforce & Organisational Development Committee Annual Report 2016-17 and **approved** the content.
- The Committee noted the recommendations for The Best People Doing Their Best Work Programme Assurance.
- The Committee received the Equality & Diversity Metrics report dated May 2017 and **noted** the content.
- The Committee received an update on progress for the BME Task & Finish Group actions and **noted** the progress.
- The Committee received the Corporate Objectives for the Trust and **noted** the content.
- The Committee received an update of the Workforce Leading Indicators and **noted** the content.
- The Committee **ratified** the Recruitment & Selection Policy and **approved** the EIA.
- The Committee **ratified** the Maternity & Adoption Leave Policy and **approved** the EIA.
- The Committee ratified the Grievance Policy and approved the EIA.
- The Committee ratified the Provision of Use of Work Equipment Policy and approved the EIA.

#### 3. Recommendations

It is recommended that the Board note the contents of the Chairs Update relating to the key issues from the Workforce and Organisational Development Committee held on 21<sup>st</sup> June 2017.

#### THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY

#### Workforce and Organisational Development Committee Annual Report 2016-17

#### The Workforce and Organisational Development Committee

The Workforce and Organisational Development Committee (WOD) was established by the Board of Directors to be responsible for overseeing the implementation of the Trust's People Strategy and Equality Agenda and ensuring the organisational development culture of the organisation is maintained.

The principal devolution of the Board's responsibilities to the Committee is as follows:

Oversee the development of the Trust's People Strategy to assure the Trust Board that the Strategy is implemented effectively by receiving progress reports against the Plan and Workforce Key Performance Indicators.

Ratify/approve workforce policies as necessary.

Monitor workforce risks contained in the Trust's Corporate Risk Register and Board Assurance Framework, and risks arising from transformation projects and report these to the Trust Board as required.

Monitor the overall resilience of the organisation and staff through appropriate measurement of engagement and health and wellbeing, and provide reports to the Trust Board as required.

Oversee the development of the workforce elements of the Equality Delivery Scheme (EDS2) action plan and ensure the effective implementation of the EDS2 by receiving regular reports against the action plans. Also, oversee the development and reporting requirements for the Workforce Race Equality Standards (WRES)

Obtain assurance that the organisational values and behaviour framework continue to be embedded and championed across the Trust.

Obtain assurance that partnership arrangements with the Trust's Trade Unions are effective to support organisational change. More specifically, the Committee will oversee the development of the Partnership Agreement.

The conduct of this remit was achieved firstly, through the Committee being appropriately constituted, and secondly by the Committee being effective in ensuring internal accountability and the delivery of assurance on specific issues.

This report outlines how the Committee has complied with the duties delegated by the Board through its terms of reference and identifies key actions to address developments in the Committee's role.

#### Constitution

In accordance with the terms of reference, the membership comprises:

- 1 Non-Executive Director [Chair]
- 2 x Non-Executive Directors
- Director of Human Resources & Organisational Development [Deputy Chair]
- Chief Operating Officer
- Chief Nurse (or Deputy)
- Medical Director (or Deputy)
- Head of HR
- Head of OD
- Equality and Diversity Manager
- Staff Side Chair
- Divisional Associate Chief Operating Officer

Minutes of the Committee are presented to the Board and are supported by a summary report from the Committee Chair. Terms of Reference are revised annually and were last approved in December 2016.

#### Achievements

In discharging its duties the Committee met its responsibilities through self assessment and review, requesting assurances from Trust officers and directing and receiving reports from relevant individuals.

The following areas were the main focus of the Committee's attention:

- Governance and Programme Assurance for all workforce projects relating to the 'Change Programme'
- Monitoring of the Listening into Action journey
- Approval of the Staff Survey action planning process
- Scrutiny of progress against the targets and measures contained within the People Strategy
- Ratification of all relevant workforce policies
- Monitoring of key workforce risks and assurance that strategic plans and operational policies exist to mitigate all significant risks
- Approval of the Trust Apprenticeship Strategy and review of progress
- Approval of the Library and Knowledge Management Strategy
- Approval of the Workforce Equality and Diversity Objectives and review of progress against those objectives
- Monitoring of the Management and Leadership Development Strategy

#### Self Assessment

During the year the Committee has complied with 'good practice' recommended through:-

- Agreement and monitoring of an annual work programme.
- Prepared an Annual Report of its activities

#### Assurance Statement

Through the various mechanisms set out above, the Committee has gained assurance that the delivery of the Trust People Strategy was on track and all key workforce risks were being managed. It has clearly expressed its expectations in relation to areas where controls need to be strengthened and these will be addressed in the coming year.

#### **Committee Developments**

Whilst the Committee has performed its duties as delegated by the Board it has identified a number of areas to focus on during 2017/18:

- Focus on progressing the development of a refreshed People Strategy.
- In line with the revised governance arrangements of holding Board sub-committees accountable for the assurance and monitoring of the 'Change programme' across the organisation, WOD will continue to have devolved responsibility for all projects relating to workforce issues. The committee meeting time will continue to be split into Strategic and Operational issues to ensure focus on both priorities.
- Agree the key areas which would receive increased focus from the Committee in 2017/18 which would enable the Trust to deliver its people related targets.
- Ensure that particular attention is given to maintenance of engagement of people in the change programme and to ensuring appropriate support is given throughout the change.
- Enhance the monitoring and reporting of follow-up actions taken in respect of its areas of responsibility.

# Board of Directors Tuesday 5<sup>th</sup> September 2017

Paper prepared by	Director of Marketing and Communications
Subject/Title	INTERNAL COMMUNICATIONS AT ALDER HEY
Purpose of Paper	To inform the Board of actions arising out the meeting of XXX
Action/Decision required	For information/discussion
Resource Impact	None

Alder Hey Children's NHS Foundation Trust

# TRUST BOARD REPORT – 5 September 2017

# INTERNAL COMMUNICATIONS AT ALDER HEY - an initial view

#### Mark Flannagan Director of Marketing and Communications

# 1. PURPOSE OF THE REPORT

To provide my initial overview of the Trust's Internal Communications, together with some initial recommendations for improvement.

# 2. RECOMMENDATIONS

# 2.1. Reform the Team Brief

- Fix as a half hour meeting.
- The Chief Executive to lead (only changes in very exceptional circumstances).
- Slides limited to one per item and a standard infographic format produced.
- Items limited to no more than three per meeting.
- Have regular Team Brief "show case" of services/departments which are the only item on agenda when this is done.
- After Team Brief the Chief Executive to record a short video blog (a "Vlog"), speaking to the highlights which is placed on the staff Intranet.
- Other ways of disseminating this Vlog, including via a dedicated You Tube channel, to be examined.

# 2.2. Track usage of staff Intranet (soon to be an Extranet)

- Monitor use of the new Extranet with weekly tracking of usage.
- Explore development of an Alder Hey staff app.
- Focus information presented as immediate must-know information from pay to policy to people.
- Hand over areas of population of the Extranet to staff across the Trust who are good communicators, not just relevant staff with responsibility.

# 2.3. Review Leadership approach

- Chief Executive to be used as a key illustrator of our approach to Internal Communications.
- Executive Team to review their role in replicating Chief Executive's approach and timetable of actions and commitments produced, building upon the Executive Shadowing process already successfully under way.

• Further work to be done on how to open up the Internal Communications leadership further down the Trust hierarchy.

# 2.4. Support Staff capacity to communicate

- Agree a Statement of Principle about Internal Communications.
- Accept and communicate the right of staff to post to Facebook, Twitter, Instagram and all new and emerging forms of social networking as a positive opportunity to speak about Alder Hey, within clear Guidelines and support.

# 2.5. Further work to be done

- Alder Hey Life to be reintroduced, along with an e-newsletter.
- Routine team meetings, formal and informal to be mapped to identify communications points.
- Internal Communications work to be jointly led and consistent with Communications, HR and OD, and Operations Directors. Future resource will be investigated.
- A Core Message Framework to be developed.
- Clinical Divisions to have a member of the Communications team allocated as a key link back to Communications.
- Presentations/speaking skills training for staff to be introduced.

# 3. BACKGROUND

On my arrival as Director of Marketing and Communications on 17<sup>th</sup> July I was asked to consider the strength of Team Brief (a monthly briefing for any staff to attend and then cascade information received across the Trust) as a priority. In so doing, I also began to consider the different existing elements of Internal Communications leading to proposals for some immediate changes and identification of longer term work that may need to be done. This paper outlines some steps already being taken (many of which were underway before my arrival), and suggests additional items that will be addressed in future. I deal here only with Internal Communications, although, in the case of social media for example, there is a clear cross over with External Communications. In so doing, I am recognising that there is much existing very good activity, but there is always an opportunity to improve and move forward.

The Staff Survey indicated that we are not performing as well as we should when it comes to good communication between Senior Management and staff. The Board requires us to do better and, as Sir David has said, we need to address the "plumbing" of internal communications.

It seems to me that we need a challenging rethink about: what internal communications is; the principles behind it; and how our workforce demographic affects our future approach. To do this we need to consider best practice and audience responsiveness (different approaches are required for different people and generations). We also need to learn from other Trusts who have experienced and dealt with similar problems. Finally, we need to go to back and look to existing and past practices which will still be relevant and effective. In so doing we should recognise the work the Chief executive and Executive Team already do to communicate and listen across the Trust.

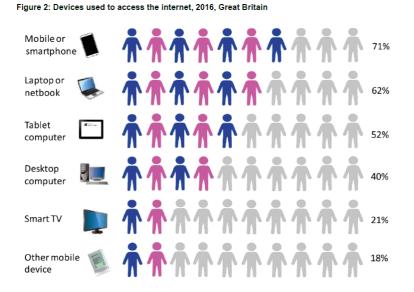

# 3.1. Team Brief

As a first observation, strengthened by repeated conversations, it is clear that the Team Brief as it stands is not working as a vehicle for communicating, despite our reliance on it as a core means of getting our message out to staff. The input into the meeting and the content is often not passed on to other members of staff. The Team Brief is too long (it should last no more than half an hour) and it contains too much information to be remembered (much of which does not appear to be "must have" information). In addition, the over reliance on Team Brief and then staff to subsequently cascade the information afterwards prevents us from addressing a more fundamental problem. Staff may not be willing both listen to and then pass on information. Staff who want Alder Hey to be a great place to work should see recognise their role in this includes communicating well to each other.

#### 3.2. Intranet

The Intranet is not a useful or user-friendly tool, even if you do have a determination to use it to search for information. Delivery will change soon with the introduction of an Extranet, which will make access user-friendly. However, I have a concern that the requirement to access even an Extranet via a browser and click through to find information is contrary to modern methods of communication. Users want on the go convenience. Users, predominantly use smart phones to access either the internet or, where available, an app that delivers what they need in a format that is portable (see diagram below). It is a reasonable assumption that our staff will mirror this device usage. Most will rarely or never access their email or the intranet via a PC, but most will carry with them their own smart phone. Producing communication that is designed for the technology on hand is critical to participation.

ONS Statistical bulletin: Internet access - households and individuals: 2016

# 3.3. Leadership

Good communication starts at the top. It is clear that the Chief Executive has a wellestablished programme to be routinely visible. Similarly, successful implementation of the Executive Shadowing plan (in which the Executive Team "get out" to visit different parts of the Trust on a planned basis) is beginning to provide valuable feedback and clear points of two-way communication with staff at all levels.

To help further, in conversation with her, I have drafted an updated visibility plan for Louise based around her extensive actions already undertaken and committed to. A similar list could be adapted and implemented by the rest of the Executive Team based on experience and our shared ambition to communicate even more effectively.

# 3.4. Staff

Staff at all levels, not just at the top of an organisation, have their own responsibility to communicate with each other. Good communication lies at the heart of good healthcare. While the importance of communications is already embedded in the professional life of colleagues, there may be an issue around willingness to pass on communication from the "top". Lack of attendance at the Team Brief and subsequent cascade of information supplied may illustrate a lack of corporate buy-in and understanding of the value of passing information on to staff at all levels. It is not surprising that that there seems to be a "permafrost layer" in the Trust where information and is not being passed down through middle-management to the rest of staff.

# 4. A refreshed approach

As a start point we can consider adopting a Statement of Principle about Alder Hey Internal Communications that drives our shared approach. For example:

We recognise the importance of open, honest and free communication about all areas of our work. Sharing information lies at the very heart of what we do. Just as it is important to listen to the opinions of children it is equally important that we listen to each other as staff.

One of our Values is Openness and we should demonstrate this daily. Every member of the Alder Hey team has a responsibility to pass on information about all aspects of our work to colleagues.

There is no need for a new Programme or initiative to address the core of our internal communications issues. Listening into Action is already a key vehicle with important activities already underway. However, in addition, we can begin to make other improvements by addressing the issues outlined above. However, this is a start, and we should develop a clear plan for longer term action and report back to the Board on progress. What follows are my initial suggestions about where we can make some change. Some of these are already being implemented or explored.

# 4.1. Team Brief

This meeting should be fixed as a half hour meeting, no longer.

- 4.1.1. Where possible the Chief Executive should routinely lead this and she should call upon staff to briefly contribute as required.
- 4.1.2. The Team Brief needs to consider its scheduling to open access to as many staff as possible, including lunchtimes, rather than the current alternating morning/afternoon schedule
- 4.1.3. Slides should be limited to one per item and a standard, infographic format is used.
- 4.1.4. Any "presentations" or items should be limited to no more than three per meeting. No-one takes away more than three messages from any meeting and we need to accept this.
- 4.1.5. Eventually we should put in place a process that "teaches" people to present many staff will have never had any training. Giving them this will allow us to iron out issues of timings, etc.
- 4.1.6. Immediately after the meeting the Chief Executive should record a short 2 to 5 minutes video blog, speaking to the highlights she wishes to convey. This will then be then placed on the Intranet. We should look at other ways of disseminating, including a dedicated You Tube channel.

#### 4.2. Extranet

- 4.2.1. We should monitor use of the new extranet with weekly tracking of usage and then act on the results.
- 4.2.2. We should explore the development of an Alder Hey staff app the focus of this should be on simplicity and user led needs.
- 4.2.3. We should focus the information presented on the Extranet as immediate must-know information (from pay to policy) and friendlier first person information (including staff news of the personal kind retirements, babies and birthdays, etc.).
- 4.2.4. Eventually we should hand over some areas of the Intranet to staff across the Trust who are good communicators, not just relevant staff with responsibility. Colleagues' providing relevant information for colleagues is a more powerful approach than "official" information downloads.

#### 4.3. Leadership

- 4.3.1. The central role of the Chief Executive and her open and honest style should be used as a key illustrator of our approach to Internal Communications.
- 4.3.2. The ambition of the Executive Team in replicating the Chief Executive's approach should be recognised with a timetable of actions and commitments be produced to mirror the Chief Executive's.
- 4.3.3. Each approach should building upon the implementation already taking place of the Executive Shadowing in the Trust, which is delivering dividends.
- 4.3.4. Further work should be done on how to open up the Internal Communications leadership further down the hierarchy.

#### 4.4. Staff

- 4.4.1. A final agreed Statement of Principle should drive our attitude and approach to how and when and where we want staff to communicate. Internal Communications will not be seen as a corporate function, but as a cultural approach in Alder Hey.
- 4.4.2. We will begin to enhance staff ability to communicate both internally and externally by developing official departmental and team Twitter accounts where requested and judged helpful to their work. This is not just a signal that good communications is open and continuous, but also that we do recognise the strength of direct, immediate conversations with all audiences.
- 4.4.3. Staff will be supported in this Twitter activity through clear guidance, training and monitoring underpinned by strong governance, just as they are in every other aspect of their professional life.
- 4.4.4. The power of Facebook and other forms of social networking to create online communities, to provide instant communications and to develop a powerful repository for information has to be embraced. We should accept the existence of so-called "un-official" groups as an opportunity for staff to communicate and seek to ensure that information is provided that enhances these media. We should look at how we manage our approach to Facebook in due course.
- 4.4.5. The Alder Hey corporate Twitter account needs to be used much more than it is. The approach has to be an 'always on, always tweeting' one.

#### 5. Further work to do

What is outlined above is a start and is a focused approach. It is recognised that there is already a great deal of activity that will continue to drive and improve Internal Communications. Immediately, we have taken the following steps to signal a shared culture of Internal Communication and shared values.

- 5.1. The Alder Hey "newspaper", *Alder Hey Life*, is being reintroduced, with the first edition published October 2017, along with the re-introduction of regular fortnightly e-newsletter *My Alder Hey*.
- 5.2. In response to demand, new lanyards Alder Hey have been designed and are being produced to be issued to all staff that will help reinforce our One Alder Hey approach. The process of handing out these lanyards should be led by the Chief Executive and members of the Executive Team. The infection control issues are being addressed.

Further work need to be done around the following, as a start:

- 5.3. Routine team meetings, formal and informal, will be mapped in order to understand where the opportunity points are to communicate. This has begun with the medical Division's production of its meetings.
- 5.4. Our future approach has to be all about "Engagement" not just messages and communication from the top. To this end, Internal Communications should be led by not just the Communications team, but also the HR and OD, and Operations Directors.
- 5.5. We need to integrate our social media streams into our website and extranet, allowing a seamless and continuous link back and forth.
- 5.6. We need to connect better with the things that we do the hospital and wider, children, community health care, etc. A Core Message Framework needs to be developed that assists this.
- 5.7. It has been suggested that , and I will implement, specifically identified members of the Communications team more formally "shadowing" the Clinical Divisions and acting as the named link person to the clinical teams.
- 5.8. For staff we should introduce presentations/speaking skills training. This will allow us to create a cadre of experienced speakers/star presenters who communicate on behalf of the Trust right across the Trust.

# NHS Foun

6. CONCLUSIONS

Much of our Internal Communication is subtle, delivered by parts of the Trust other than Corporate and already takes place in unknown and unseen channels. Good Internal Communications is no more than a form of social networking and there is already a great deal of this. The above approach is the first step to introducing a clear culture of high quality, shared communication across the trust, backed up by processes and methods that allow everyone to both receive and transmit their necessary information against our Values and our Plan. Our aim is to get it right for Alder Hey, producing the best Internal Communications we can, acting as an example to other Trusts.

# Programme Assurance Summary Change Programme

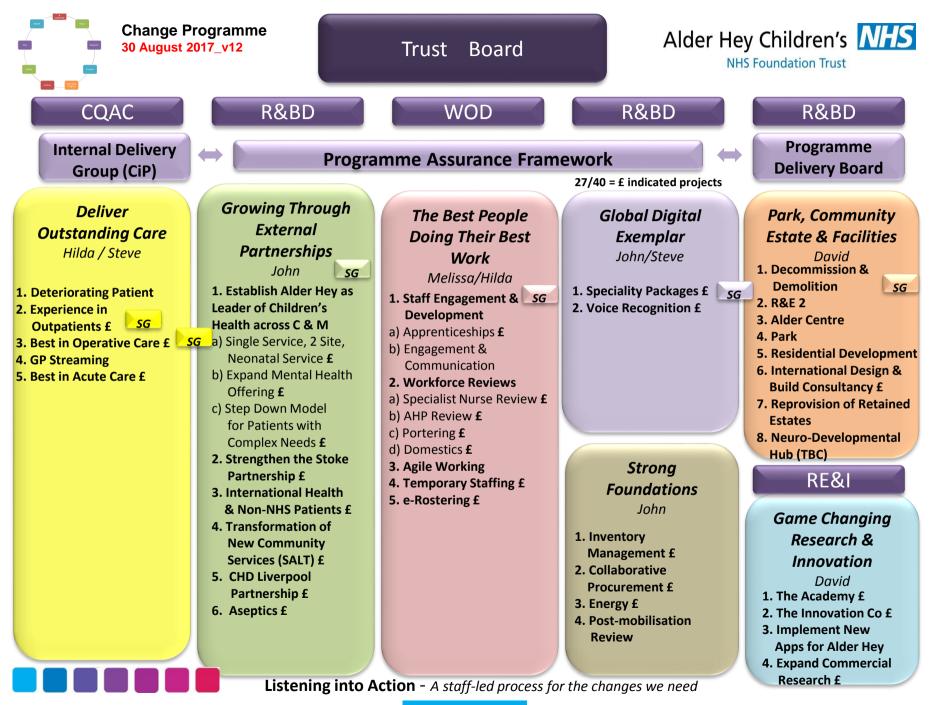

Programme Summary (to be completed by External Programme Assessment)

This months board programme assurance is in a bespoke format (in the absence of sub-Committee reports in August). In summary, and by work stream, the assurance findings – based as ever upon the documentary evidence uploaded onto our SharePoint site – are as follows:

- Deliver Outstanding Care. Two of the live project ratings have slipped to 'amber' due the milestone plans not being regularly updated on SharePoint. It was agreed at the Programme Board (PB), 31 Aug, that sponsors will fix these issues. The 'red' rated projects are just commencing, so the ratings reflect that reality; however, it was agreed at PB that the work needs to accelerate.
- 2. Growing Through External Partnerships. The evidence base and ratings are improving and it was agreed at Programme Board that this should be expedited by the time of the next PB in September. The status of the 'Stoke Partnership' was discussed and action is in hand.
- **3.** The Best People Doing Their Best Work. This work stream has suffered from long term absence of a key project manager, the executive sponsor will speak to the assurance team to find workaround. Projects for e-rostering and Temporary staffing will commence in Sep 17.
- 4. Global Digital Exemplar. This work stream is achieving a high standard of governance and assurance, the programme team take full ownership for the ratings and are pro-active in dealings with the assurance team; this praiseworthy performance was noted by the PB.
- 5. Park, Community Estate & Facilities. This work stream takes the accolade for most improved ratings since the previous assurance report and the team should take credit for a new level of engagement with the assurance process. The red rated projects are commencing and so would expected to be red/amber at this stage; again, it was agreed at PB to accelerate the set-up work.
- 6. Game Changing Research & Innovation. The evidence base here has improved to the extent that no projects remain on red and there is a clear understating of the next steps required to move from amber to green.
- **7. Strong Foundations.** The red ratings here are a reflection of the fact that the extensive evidence base has yet to be uploaded to SharePoint and this will have been expedited by the time of the September Programme Board.

Is there a Governance Issue?	Patient Centred Services
Aug-16         Sep-16         Oct-16         Nov-16         Dec-16         Jan-17         Feb-17         Mar-17         Apr-17         May-17         Jun-17         Jul-17           N	Modest deterioration in metrics noted despite achievement of 3 of the 4 NHSI standards. Key deterioration is the ED 4hr standard following high levels of NEL/ED attendance. Theatre & OP utilisation has also deteriorated and EL activity underperformed against plan; despite this backlog has remained static and no patients waiting >52 weeks noted. 28 day breaches reduced from 5 to 1 however a further increase in cancellation on the day identified for July; these patients will need to be rebooked within 28 days.
<b>Highlights</b> The Trust is compliant with all NHSI standards with the exception of the ED 4hr standard. Diagnostics, incomplete pathway & cancer all achieved despite the high number of NEL & ED attendances. 28 day breaches have reduced to 1. Activity has increased within the hospital against the same period last year. Backlog remained static, no patients waiting >52 weeks and clearance rates reduced. Corporate induction hit 100% for July	Excellence in Quality This month has seen excellent performance in maintaining low levels of hospital infections (15 year to date vs 33 last year), including zero MRSA and C. difficile. The number of clinical incidents causing harm, remains high (352 cumulatively compared to 188 last year) as does the proportion of reported incidents associated with harm (from 12% last year to 25% this year). There were 4 SIRI's in month, which is 10 year to date. Eight pressure ulcers (grade 2 and higher) were reported in July (two of which were Grade 3), increasing the cumulative number from 12 to 20, compared to 9 last year. There were 4 formal complaints in July, the lowest in one month since January. PALS attendances dropped slightly in month but are maintaining an increasing trend since April. Family & Friends responses in outpatients have shown a slight reduction in the percentage that would recommend Alder Hey. However there is a need to
	Financial, Growth & Mandatory Framework For the month of July the Trust is reporting a trading deficit of £0.3m which is £0.1m behind plan.

#### Challenges

4hr standard failed for July (only standard linked to STF funding). High attendances noted for July over plan (n+333) combined with availability of junior Dr's presented a key challenge to manage. Cancelled Ops on same day has increased and will require specific management actions from surgery to balance increased theatres to bed stock. OP actual utilisation remains a challenge. Med/Surg consistent at circa 86%; community challenged at 78%. Ongoing work required to manage DNA's which are Surg 10%, Med/Comm 14%. DQ issues persist notably with cashing up clinics which skews above data. 28 day relists has reduced but remains a challenge in capacity constrained specialties. Backlog stable.

Pay budgets are 0.2m overspent for the month relating to use of temporary staffing which has increased. The Trust is ahead with the CIP target to date by  $\pounds$ 0.1m. Cash in the Bank is  $\pounds$ 11.2m. Monitor Use of Resources rating of 3 in line with plan.

#### **Great Talented Teams**

on non elective activity of 12%.

The Trust position on sickness absence increased slightly in the month of July to 5.08%. The number of PDR's completed rose from 48.3% to 69.69% at the end of July. The PDR window closed 31/07/17. Medical Appraisals increased to 79.21%. Mandatory Training compliance dipped slightly to 75.31%, work is continuing on the OLM data cleanse and the roll out of the ESR portal.

#### Summary

Clinical incident reporting remains high (352 year to date compared to 188 last year) with an increase in the proportion of incidents resulting in harm (25% compared to 12% last year. There has also been a cumulative rise in incidents associated with moderate or higher harm from 3 last year to 8 this year, and there were 4 Serious Incidents Requiring Investigation in month, resulting in 10 year to date. Medication errors resulting in harm remain similar to last year with 13 reported year to date. Pressure ulcers (grade 2 and above) have shown a rise with 8 reported in July (two of these were Grade 3), i.e. 20 year to date, compared to 3 at this point last year.

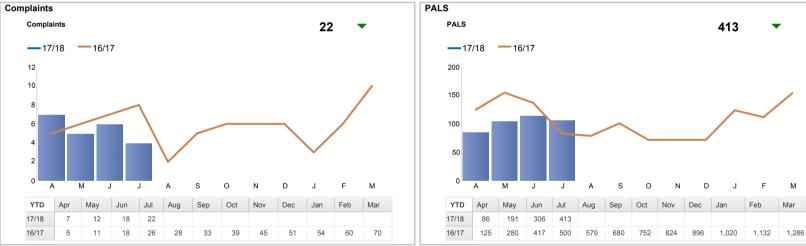

Page 136 of 207

#### Summarv

There were 4 formal complaints in July, this is the lowest in one month since January. PALS attendances are slightly lower than the previous month but are maintaining an increasing trend since April. Family & Friends responses have improved except in outpatients where there is a slight reduction in the percentage of families that would recommend Alder Hey. However there is a need to improve the number of responses in A&E and in Community. Inpatient survey metrics have all moved closer to their goal except 'patients knowing their planned date of discharge' which has deteriorated slightly.

19. Corporate Report Final July 2017 v2

#### Summary

The marked reduction in hospital acquired infections has been maintained this month, with a cumulative 15 HAIs compared with 33 HAIs at this point last year. MRSA and C. difficile remain at zero for the year. Year to date there have been 3.8% (235) of surgical patients discharged later then their plan, compared to 5.4% at this point last year. The number of deaths in hospital has improved slightly at 23 cumulatively, compared to 27 last year Infections **—** 17/18 -16/17 -Threshold (YTD) Total Infections (YTD) Hospital Acquired Hospital Acquired (YTD) 12 10 8 Organisms - MRSA (BSI) **Organisms - C.difficile** 15 0 0 4 (goal: 28.0) (goal: 0.0) 2 (goal: 0.0) 0 Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb Mar (YTD) **Cluster Infections** (YTD) Legend **Outbreak Infections** YTD Apr Mav Jun Jul Aua Sep Oct Nov Dec Jan Feb Mar 17/18 **—** 17/18 2 0 33 16/17 **—** 16/17 Hospital Acquired Organisms - MRSA (BSI) Hospital Acquired Organisms - C.difficile Acute readmissions of patients with long term conditions 0 0 24 \_ within 28 days (goal: 0.0) (goal: 0.0) (Est. Page 138 of 207

#### Summary

Incomplete pathway, diagnostic & cancer standards achieved. 4 hour access standard failed and deterioration noted with quality metrics. Challenges with Dr availability and maintaining rotas. Activity (spells) has increased against same period last year. GP referrals have increased above 2016 levels and in line with seasonal trends with C&B available to meet current demand. Capacity continues to be monitored via Divisions & daily bed meetings. No patients waiting greater than 52 weeks plus backlog of patients waiting >18 weeks remains stable.

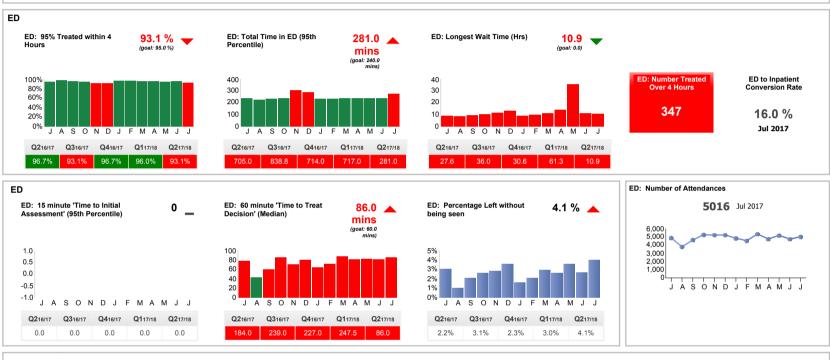

#### **Emergency Department** Jul 2017

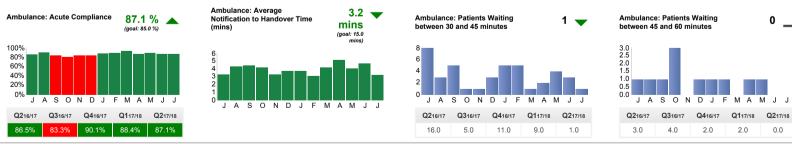

Alder Hey Children's NHS NHS Foundation Trust

#### Summarv

July was a challenging month due to above predicted numbers of attendances and conversions to admission. Flow into the hospital was compromised due to high bed occupancy levels. Gaps in medical staffing continued to impact on efficiency and an increased number of vacant GP shifts due to lack of availability at UC24 compounded decision to treat time and overall waiting times.

0

0.0

#### Summary

Planned activity levels have increased against the same period last year with increased length of stay noted driving up occupancy to 83%. On the day cancellations have increased with notable changes due to accommodating emergencies. 28 day relist figures have also reduced for M4. Theatre utilisation has reduced predominantly due to impact of Medical specialties and Out Patient utilisation has also decreased slightly spread across a number of specialties and despite lower DNA rates that will require further analysis and action to address.

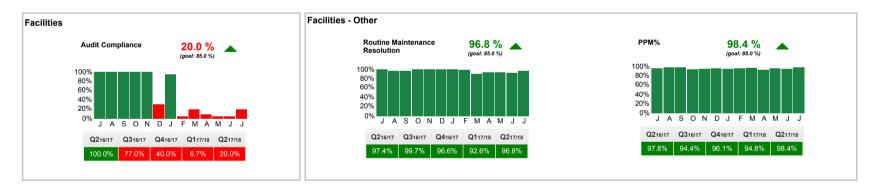

# Facilities

Alder Hey Children's

#### Summary

The on going organisational change along with peak holiday weeks has resulted in staff shortages. This has meant Supervisors are having to undertake Domestic tasks and that has prevented full audits taking place. The standards reported are from the small number of audits that has been undertaken, with greater emphasis on the very high risk areas.

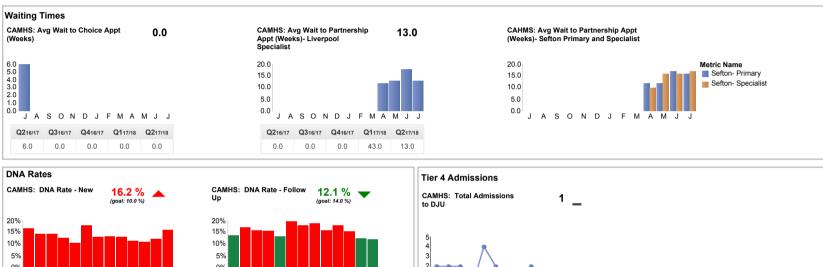

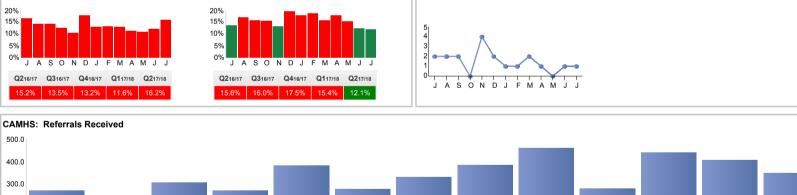

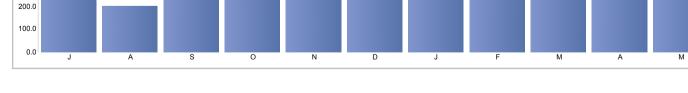

#### Summary

Waits for choice have increased to 10 weeks over during July. A remedial action plan has been produced to manage the waits. This wait has increased due to longterm sickness and maternity leave.

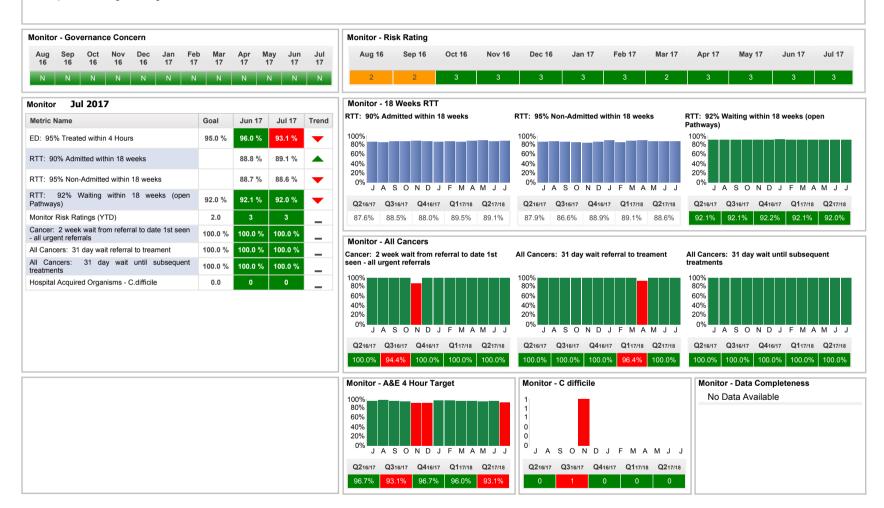

J

J

#### Summary

The Trust is currently rated as Good by CQC and remains registered without conditions. We are compliant with our Provider Licence and at the end of March continue to be placed in segment 2 under the new NHS Improvement Single Oversight Framework.

### Summary

The Trust position on sickness absence increased slightly in the month of July to 5.08%. The number of PDR's completed rose from 48.3% to 69.69% at the end of July. The PDR window closed 31/07/17. Medical Appraisals increased to 79.21%. Mandatory Training compliance dipped slightly to 75.31%, work is continuing on the OLM data cleanse and the roll out of the ESR portal.

Support Required

Key Issues Clinic Session has increased in July, but still not to 90%; New DNA rate is contributing to this at 12.7%, but seen a continuation of a Follow Up DNA rate under 10%. The Division has had a challenging financial position in Month 4, and we are looking at ways we can improve this in line with ensuring we are capturing all activity. We have seen a deterioration in our RTT position over the last 3 months, with two specialties contributing to this with position, Rheumatology and Gastro.

Key Issues PDR's- 87.6% significant increase for July, huge push in August to achieve target. RTT- Just below target, problem areas (ENT: Spine), have both seen an increase in position for July. Theatre utilisation- slightly behind target at 87.7%, piece of work underway to improve the admissions process and ring fence day case beds to allow earlier booking for patients. Clinic utilisation- improved since June, problem areas are under review and other specialities are moving towards hybrid booking system which will improve slot utilisation and appropriate booking of patients.

Support Required

Support required following the feedback from the VR rollout in Orthopaedics to ensure that the issues are addressed prior to go live with other specialities. There is a concern that the typing turnaround has increased again due to a backlog of letters and a VR impact on staff retention. Critical care require support in managing their sickness, previously this has worked well and we would like to get back to the same level of support.

## Board of Directors *Tuesday, 5<sup>th</sup> September 2017*

Report of	Director of Corporate Affairs					
Paper prepared by	Executive Team, and Quality Assurance Officer					
Subject/Title	2017/18 BAF Report					
Background papers	Monthly BAF updates/reports					
Purpose of Paper	To provide the Board with the BAF August report					
Action/Decision required	The Board is asked to note the June position relating to the Board Assurance Framework					
Link to: > Trust's Strategic Direction > Strategic Objectives	<ul> <li>By 2020, we will:</li> <li>be internationally recognised for the quality of our care (Excellence in Quality)</li> <li>be recognised for the exceptional care we provide to our children, that is technologically enabled and matched by exceptional facilities (Patient Centred Services)</li> <li>have a fully engaged workforce that is actively driving quality improvement (Great Talented Teams)</li> <li>be a world class, child focussed centre of research &amp; innovation expertise to improve the health and wellbeing outcomes for babies, children &amp; young people (International Research, Innovation &amp; Education)</li> <li>have secured sustainable long term financial and service growth supported by a strong international business (Growing our Services and Safeguarding Core Business)</li> </ul>					
Resource Impact	Non achievement of the Trust's objectives could have a negative impact on the services provided by the Trust.					

### 1. Purpose

This report is a summary of the current Board Assurance Framework (BAF) for review and discussion.

### 2. Review of the BAF

The diagram below gives a high level view of the current version, followed by a summary and a brief on the changes since the last Board meeting. The full document is included as Appendix A.

BAF Risk Register - Overview at 31 August 2017
2.4: Financial Environment (S)
2.3: IT Strategic Development (S) 1.3: Management Contract arrangement with Liverpool Community Health Trust (S)
2.2: Failure to fully realise the Trust's Vision for the Park (S) 3.2: Business Development and Growth. (S)
3.3: Developing the Paediatric Service Offer (5) 4.1: Workforce Sustainability & Capability (S) 4.2: Staff Engagement (S)
4.3: Workforce Diversity & Inclusion (S) 1.1: Maintain care quality in a cost constrained environment (S)
2.1: New Hospital Environment (S) 5.1: Research, Education & Innovation (S)
1.2: Mandatory & compliance standards (S)

### Changes since 30 May 2017 Board meeting

The diagram above shows that the majority of the risks on the BAF remained broadly static.

### **External risks**

### • Business development and growth (MB)

1) AH were awarded the Management Contract for Liverpool Community Health, (Liverpool Bundle) for May 2017. Future organisational structure being developed with NHSi, the 3 Acute Trusts, local authority, LCCG and local GP's. Opportunities for all to rationalise patient pathways.

2) Partnership with AI Jalia now entering Phase 2. Specific deliverables identified and agreed. Work due to commence in Q2. Non NHS patient stretch target agreed and Q1 activity delivered.

3) MOUs signed with two hospitals in China and work in progress to identifying workstreams and benefits.

4) AH awarded contract for Design and Build Consultancy for Children's Hospital in Xian.

### • Mandatory and compliance standards (ES)

Complaint with all national targets in month. Registration of community services with CQC is resolved.

### • Developing the Paediatric Service Offer (MB)

Work commencing on the Implementation of the single service, two site model;

1) Neonatal service model with NHS England and LWH on 6/7/17

2) CHD Public Consultation closes in July. Results not expected to be released until January 2018. In the meantime AHCH and LCH are providing support to deliver services for patients due to the collapse of the Manchester service following the departure of their last remaining surgeon in June.

3) Out of Hours group has been merged with the other workstreams to design a sustainable 24/7 paediatric service in light of further reductions and gaps in rotation. This workstream is named best in Acute Care and is led by the MD and Chief Nurse.

### Internal risks:

• Maintain care quality in a cost constrained environment (HG)

All nursing staff now trained in Sepsis triggers; medical staff training to take place in August & September. Re-introduction of matron role across the Trust over next three months.

• Management Contract arrangement with Liverpool Community Health Trust (LS)

Stock take report compiled for NHS I. Plans in place to ensure services at both AH & LCH are managed safely and effectively. Senior Roles and associated back fill confirmed and communicated to all AH staff.

### • New Hospital Environment (DP)

Probation period ended. Main outstanding issue – energy.

### • Financial Environment (JG)

£0.3m behind control total at month 2. Residual Forecast financial risk of circa £5m identified by Divisions. Action Plan Produced and delivery tracked via Internal Recovery and RABD.

• Failure to fully realise the Trust's Vision for the Park (DP) Consultation strategy presented at July board.

### • IT Strategic Development (JG)

GDE funding confirmed and agreements signed / returned by DoF. Cash not received 27.06.17. Overall GDE programme milestones have slipped but on track to deliver objectives.

• Workforce Sustainability & Capability (MS)

Temporary Staffing Project initiated

- **Staff Engagement (MS)** Launch of the Big Conversations with staff from across the Trust. Executive Visibility Programme commenced
- Workforce Diversity & Inclusion (MS) First BME Network meeting. HRD as Exec sponsor.
- **Research, Education & Innovation (DP)** Academy model agreed.

Erica Saunders Director of Corporate Affairs August 2017

MAY 2017: the Trust continues to maintain appropriate workforce levels ensuring care quality in a cost constrained environment. Achieving Monitor capped nursing agency targets JUNE 2017: All nursing staff now trained in Sepsis triggers; medical staff training to take place in August & September. Re-introduction of matron role across the Trust over next three months. JULY 2017: Staffing requirements for winter assessed as part of refresh of successful winter plan from 2016/17; also early consideration of flexing beds and surgical capacity. Trust has agreed support for development of an additional four ANPs as part of overall workforce plan. August 2017: Measures being taken to address unexpected gaps in senior nursing leadership due to sickness and other personal issues. Preparatory work underway for new cohort of newly qualified nurses commencing September.

# 17/18/37 Minutes of the previous meeting held on 5<sup>th</sup> June 2017 Resolved:

It was agreed agenda item 25 would be amended to include Operational Productivity Theatre.

Subject to the above amendment RABD received and approved the minutes of the previous meeting.

### 17/18/38 Matters Arising and Action log

All actions were either an item on the agenda or in progress.

### 17/18/39 Performance

Lachlan Stark reported on performance for Month 2. Concerns had been raised around data capturing. There were uncertainties around whether all performance was being captured and assigned to correct codes. The division was working through this however it was agreed this would be an item at the Operational Board tomorrow morning. Will Weston agreed to provide an update to John Grinnell on Friday. **Action: WW** 

An agreement has been reached to invest in further coders to identify further data capture and accuracy opportunities.

It was unlikely that data not been captured would have an effect on patients however Lachlan Stark and Rob Griffiths agreed to look into. **Action: LS/RG** 

Surgery – Due high emergency demand and the incident at a concert in Manchester elective surgery had been compromised with a higher than normal level of surgical cancellations..

### Medicine Performance

The Chair welcomed Will Weston and Glenna Smith to RABD.

Following review of 17/18 activity for the whole of the Division, the associated adverse income position has improved from (£2.7m) to (£0.6m).

Performance challenges for this financial year are:

- Gastroenterology
  - Service not at full consultant staffing numbers till October 2017.
  - General Paediatrics
    - Junior Doctor shortages on out of hours rota causing challenges on delivery of OPD plan.
- Rheumatology
  - Improved models of care, IP converted to D/C and care repatriated to local areas where appropriate.
- Theatre Capacity
  - Improvements in utilisation have negatively impacted Neurology in accessing ad-hoc capacity for day cases

Glenna Smith went through opportunities being looked into for 17/18 recognising that the Division need to ensure historical investments in clinical capacity deliver the planned benefits.

### **Resolved:**

RABD received a performance update on month 2 and detailed presentation from Medicine.

### 17/18/40 Finance report

For the month of May the Trust is reporting a trading deficit of  $\pounds 0.4m$  which was ahead of plan by  $\pounds 0.1m$ . Income is ahead of plan by  $\pounds 1m$  but expenditure is higher than budgeted by  $\pounds 0.9m$ . Payment had been received for a patient who had been an inpatient for over 3 years, the payment was for around  $\pounds 300k$ . Discussions are being held to see if long term cases can be paid in stages.

The year to date position is a deficit of £2.4m which is behind plan by £0.3m. The Use of Resources risk rating is 3 which is in line with plan and cash in the bank of £5.2m.

The total Sustainability & Transformation funding (STF) for the year is £4.4m. 75%, now 70% of STF is paid on achievement of financial control total on a quarterly year to date basis. 18 weeks will no longer be included in this.

### Contracts

It was agreed contracts would now be reported as part of the Finance report.

### **CCG Contract**

The Merseyside *Acting as One* agenda means that in 17/18 £25m more of our local CCG contract is commissioned on a block basis. All activity (with the exception of drugs & devices) for Liverpool CCG, South Sefton CCG, Southport & Formby CCG and Knowsley CCG is now under block, meaning that overall £40.7m (76%) of the contract is now commissioned on a block basis.

The agreement is for two years and includes 1% growth (over and above 16/17 outturn) for 17/18 and another 1% growth in 18/19.

Page 180 of 207

#### Welsh (WHSSC) Contract

The 17/18 contract is yet to be agreed with Wales. Welsh commissioners are in dispute with all English hospitals over the implications of the new Payment by Results grouper (HRG4+). The new grouper, which among other things aims to group similarly resourced activity more accurately, has increased the overall value of Welsh activity which Welsh commissioners maintain has not been reflected in central allocations. Ironically, under the new grouper, Welsh activity at Alder Hey marginally reduces in value.

The 17/18 contract will therefore not be signed with Wales until this wider national issue has been resolved.

Year to Date contracts are significantly over performing.

#### **Control Total**

The Trust Control Total is a surplus of £0.1m and it is imperative that all Divisions meet their financial objectives, so that the Trust achieves agreed Control Total, and secures the full £4.4m STF funding which is cash-backed. The Divisions have prepared a forecast which totals a £9.4m deficit and none of the forecasts have been accepted. The expectation is that all divisions and departments will:

- Deliver activity plans
- Control Pay Expenditure
- Achieve full CIP target
- Break even against budget control totals

Plans in progress came to a total of around £5m. Claire Liddy presented 20 actions totalling around £8km.

#### Capital

Month 2 saw an in month underspend against the submitted NHSi plan of £833k, underspend YTD £2,696k. The main areas of variance to budget relate to delayed commencement / changes in the forecast profile to R&E2 and corporate office scheme progress, although preparation and groundworks for R&E2 have now commenced following significant progress in demolition works.

GDE was scheduled to commence 1st April, but due to Treasury delays in approving funding the project has now slipped. Profiled medical equipment spend YTD has not been fully delivered.

Expected costs for non-medical equipment (new car parking system, audiology booths) are slightly behind plan.

YTD overspend in Estates relates to higher than forecast YTD spend on Demolition.

#### **Resolved RABD:**

Received and noted the content of the Finance report for month 2.

#### Corporate report

A CAMHS patient had made a choice to stay in a room in A&E as there was no CAMHS bed available. As the patient had stayed in A&E for over 20 hours this had been recorded as a breach.

#### Resolved RABD:

Received and noted the contents of the CR report for March month 2.

#### 17/18/41 CIP

Claire Liddy noted the current risk at £2.4m and the plans in place to reduce the risk.

#### **Resolved RABD:**

Received and noted the contents of the CIP update.

#### 17/18/42 Global Digital Excellence

The Trust received confirmation of the first tranche of PDC funding on Friday 16<sup>th</sup> June (approximately £2.5million), it is anticipated that this will be available for draw down by the end of June. The remaining milestone one revenue funding (approx. £800k) will be made available via the CCG imminently.

The voice recognition project is going live in Orthopaedics the first week in July.

#### **Resolved:**

RABD noted the Trust's approval for participation for the GDE Programme and ongoing work to progress this programme.

#### 17/18/43 Procurement

Steve Begley updated RABD on work in progress with Trusts across the North West on collaborations as identifying opportunities to reduce prices was becoming more of a challenge. A report on savings identified will be with Claire Liddy on 10<sup>th</sup> July 2017.

A joint meeting with the three top suppliers was being held with Trust's across the North West including Johnson and Johnson.

Focus internally would remain on clinical engagement.

It was agreed an update would be received at the next RABD to demonstrate further progress in identifying improved savings opportunities. **Action: SB** 

#### **Resolved:**

RABD received an update on procurement, top 5 targeted areas and planned activities/priorities for 2017/18.

#### 17/18/44 Programme Assurance

Joe Gibson reported the Programme Board had been reinitiated, the first meeting was held on Friday and reviewed project resource.

RABD went through the three workstreams below. It was agreed an update on the estates strategy would be received at the next Board meeting on 4<sup>th</sup> July 2017.

Action: SB/DP

Growing through External Partnerships Solid Foundations Park, Community Estate and Facilities

#### Resolved:

RABD noted the report and the work being undertaken to increase pace and benefit opportunities

#### 17/18/45 Weekly waiting times update

All core access standards have been achieved for May. It has been a turbulent month with 2 bank holidays and the Manchester terrorist incident to manage which has contributed to high levels of cancelled operations. This will create a challenge for the months of June and

Resource and Business Development Committee Minutes 28.07.17

Page 4 of 6

July as our patients need a binding date for re-admission within 28 days to prevent contractual penalties.

Mags Barnaby reported on a CAMHS patient breach as there was no CAMHS bed available. Due to this the patient had chosen to stay in a room on A&E and was comfortable. The team were just going through a process to identity if this case would be marked as a breach.

#### Weekly Performance Group Terms of Reference

Main changes included the title and the wider attendance. RABD will continue to receive monthly reports.

#### **Resolved:**

RABD received the weekly waiting time report and the Weekly Performance Group Terms of Reference.

#### 17/18/46 Marketing and Communication Activity report

For the month of May Colin Beaver reported: Mark Flannagan new Director of Communications starts in post on Monday 17<sup>th</sup> July 2017.

#### Resolved:

RABD received and noted the contents of the May report.

#### 17/18/29 Board Assurance Framework

Erica Saunders agreed to:

- ensure 6 key risk areas here reflected in the BAF.
- Ratings of risks were being reviewed.
- Action: ES/Jill Preece Resolved:

RABD received and noted the content of the BAF update.

#### 17/18/47 Monthly Debt Write Off

RABD received the June write off for £17,690.97.

The overpayment for:

£12,157.15 was a Capita overpayment to a doctor who is no longer in the country.

£5,122.00 international patient who had not paid, RABD noted the stronger processes in place so this doesn't happen going forward, however the hospital are required to treat international patients.

#### Resolved:

RABD approved June's write off for £17,690.97.

#### 17/18/35 PFI Contract Monitoring report

Christopher Gildea went through the highlights from the monthly report:

- New Theatre floors are due to be refitted by December 2017. Rob Griffiths queried the timings for when the new floor would be fitted and whether the whole floor would be replaced or part of it. Chris Glidea agreed to look into this and update Rob Griffiths.
- NHS Improvement had requested a Fire Assurance report. Due to the recent fire incident to the Grenfell tower block of flats in London the Fire Service in Liverpool are currently in-undated with checking safety of tower blocks. RABD was assured the hospital is low risk due to the building being new and no cladding was used. A date for an inspection is awaited.

Page 5 of 6

An update on fire drills and exits is to be presented at the Delivery Board tomorrow morning. Mags Barnaby advised a working group are reviewing the external barriers.

A discussion was held on visibility of security. It was noted the security services would be going out to tender, a request was made for uniforms to be included.

Reference was made to the Institute in the park being surrounded by timber and ensuring this was included with the Trust's insurers.

- Defects on areas of the roof without grass have been logged and are being processed.

#### Resolved:

RABD received an update on the PFI monitoring report.

#### Any Other Business

No other business was reported.

**Date and Time of the next meeting:** Tuesday 1<sup>st</sup> August 2017 at 13:30, Room 5, Level 1 Mezzanine.

Item No	Item	Key Discussion Points	Action	Owner	Time Scale
Housekeepi	Housekeeping				
17/18-01Minutes of the Last Meeting & ActionThe Committee considered the minutes of the previous meeting of the Integrated Governance Committee held on 15 March 2017.					

	List	The Committee <b>APPROVED</b> the minutes as a correct record.		
		The action list was updated accordingly.		
17/18-02	Matters Arising	16/17-46 Fire Safety Training (Ulysses Ref: 1118)		
		The Committee received an update on the risk relating to fire safety arrangements in the CHP and retained estate.		
		<ul> <li>Evacuation drills: DR reported that five practice drills had been carried out which had focussed on non-clinical areas; a rolling plan was underway. Walk-through type drills were yet to be undertaken for clinical areas.</li> <li>The Committee was updated on the issue regarding the 'break-glass' fail safe mechanisms; previously reported as being located on the outside of fire escapes only. (see report). BST have reviewed and quotation awaited as need to account for security &amp; safeguarding. AK</li> </ul>	Update to July on clinical area drills	
		<ul> <li>was clear of the need to reference the derogation in the Fire Strategy. MB raised the point re the need to quantify the risks &amp; mitigation and suggested set up a T&amp;F Group assess. A solution would be brought to the July meeting.</li> <li>Substantive Fire Safety Advisor being recruited to</li> <li>Storage of cots issue – RC – need to know where these are for decontamination purposes. MD to take forward.</li> </ul>		
17/18-03	Matters arising	16/17-102 PFI Contract Risk – chillers for all MRI Units		
		WW updated – maintenance contract in place; risk still stands but progress being made. Two issues require resolution:	Update to July	
		<ol> <li>Electrical work needed for switch (timescale 2 weeks)</li> <li>Negotiation of a breakdown contract (timescale 6 weeks)</li> </ol>		
		Update to July meeting.		
		Discussion ensued regarding further additional risks to single point of failure to a service i.e. equipment. HoQ undertook to work with estates to proactively identify within CBUs.		

17/18-04	2016/17 IGC Annual Report	<ul> <li>SI alluded to warranties that were in place following the move and sought assurance this. BL to undertake a schedule of warranties.</li> <li>The Committee received the Integrated Governance Committee Annual Report for 2016/17 for consideration.</li> <li>MB questioned how effectively linked the Committee was with the organisation. SI stated that this was an evolving process and referred to the devolved governance model which would act as a mechanism for greater exposure throughout the Trust. MIAAs review of devolved governance and sustainability of risk management arrangements to provide assurance that this was happening. TR commented that the outcome and recommendations from this would also inform agendas going forward.</li> <li>ES alluded to the new Governance Strategy which would also be key in shaping the agenda going forward along with further devolution of the risk</li> </ul>		
		agenda into the organisation. <b>Resolved</b> that: the Committee noted and APPROVED the contents of the		
Corporate /	CBU Risk Register Rev	Annual Report for onward submission to the Board of Directors.		
17/18-05	Exceptions report: risks for escalation/ de-escalation. Review of all corporate risks in order of highest current risk rating.	The Committee considered the Corporate Risk Register (CRR) Exception Report.         Following due challenge and consideration, the following risks were discussed: - <b>Risks for escalation:</b> Five risks were received for escalation from medicines management Risk 941: Lack of appropriate maintenance of environmental temperature for storage of medicines both at ambient (room) and fridge temp.         DP reported that this was a systemic issue trust wide and that Project Co.         Had introduced devices to reduce temperatures. A strategy had been agreed with pharmacy to agree interventions (timescale July)		

	Risk 812: Safe & secure storage of medicines         Risk 868: Reduced near patient pharmacy service         Risk 1191: Warfarin prescribing on Meditech         Risk 865: Meditech 6 EPMA prescribing         MB – need to agree a method for dealing with and reporting risks impacting on many services.         AH stated that the escalation process within Medicine required looking at and that a survey would be undertaken to gain baseline. HoQ to agree a process with help of MB.         Risk to be centrally owned.		
	Action: the Committee agreed that the five medicines management risks did not require escalation at this stage and needed to be centrally owned		
	Reservoir Kits – not escalated <u>Risks for de-escalation</u>		
	<u><i>Risk XXX: RTT</i></u> Talked about current position and mitigations in place – now felt to be a low risk. <b>Action:</b> agreed to <b>de-escalate.</b> Need to reflect divisionally		
	<u>Risk XXX: 4 hour target</u> Discussion ensued regarding this risk always being there. Criteria to change soon also. Action: agreed for this risk to remain on the register at local level.		
	<b><u>Risks getting worse:</u></b> Mandatory training – worsened position noted. MS did not agree with this and undertook to see why		

		Sepsis – again, this risk had not worsened. Needs to updated at project group.	
		Mental Health Standards – incorrect – updated twice	
		Risk movements since the last meeting (not reflected on the CRR Heliview):	
		Risk 3: Shortfall of Junior Doctor Medical Staff	
		Risk merged with 720 (Junior Doctors – Staffing Levels) and <b>closed</b> .	
		WW provided an update on Jr Dr staffing risk and stated that he was working closely with the Medical Director to address this issue. Risk being mitigated daily at present but long term programme needed to address. National recruitment was down 8% this year.	
		The Chair thanked the Committee for the report.	
17/18-06	New Hospital Occupation Risk Register	IGC were reminded of the five remaining risks associated post the move into the new hospital and that an external reviewer had been appointed to conduct a health and safety review.	
		ES introduced the summary from the independent review and highlighted the findings, recommendations and associated costs. DP alluded to the biggest risk of the CHP RR being the internal balconies. SI – recommendations based on legislation – welcomed views on taking forward. ES – legal aspects to be considered. MS reported that further work had been undertaken on the services yard and balustrades with significant cost. Full discussion needed at Executive level.	
		<b>Resolved</b> that: recommendations noted – Execs to provide a close-off report to July meeting.	
Committee /	Sub Group Reports		

17/18-07	Emergency Preparedness Assurance Report	<ul> <li>EM presented the Emergency Preparedness assurance report from the 7<sup>th</sup> March 2017 meeting and provided a brief overview of the report.</li> <li>Evacuation procedure of whole hospital – EP Group to look at</li> <li>EP Annual programme required.</li> <li>Loss of heat incident – Interserve to look at and provide feedback</li> <li>Cyber incident – formal thanks to IT Team and divisional support in response to incident. JG – CF to report to RBD re learning. SI – vital to ensure latest software updates.</li> <li>Manchester terrorist incident – MS – formal thanks to EM. Country now on critical alert – will be enhancing hospital security as a result of guidance received. PB – very concerned workforce – willing to help in any way possible.</li> <li>Resolved that: the Committee NOTED the contents of the report.</li> </ul>	
17/18-08	Health and Safety Assurance Report	<ul> <li>AK presented the assurance report of the Health &amp; Safety Committee.</li> <li>Main issues from the report were highlighted as follows:-</li> <li>COSHH – not compliant, trial ongoing for a system – medicine to pilot.</li> <li>RCA – still to follow</li> <li>Control of contractors remains a concern</li> <li>Water safety audits now underway</li> <li>Access to pantries / kitchens issue</li> </ul> Timescales to be added to report Resolved that: the Committee NOTED the contents of the report.	
17/18-09	Infection Control	<ul> <li>RC presented the assurance report of the Infection Prevention Control Committee Meeting (15 March 2017) and highlighted key issues and assurances:-</li> <li>Cleanliness review underway. SB – recruitment now undertaken, SOPs new practices &amp; audits to be in place in the next few months.</li> </ul>	

		<ul> <li>Talked about IPC Risks</li> </ul>		
		Resolved that the Committee: NOTED the contents of the report.		
17/18-10	17/18-10       Information       The Committee received and considered the assurance report on behalf of the Information Governance Committee (meeting 3 <sup>rd</sup> March 2017).         Assurance Report       The Committee received and considered the assurance report on behalf of the Information Governance Committee (meeting 3 <sup>rd</sup> March 2017).			
		<ul> <li>ES highlighted the following key issue detailed within the report:-</li> <li>HG &amp; PB now trained guardians</li> </ul>		
		<ul> <li>two issues 1) retrieve – access due to technical issues 2) retained estate materials.</li> </ul>		
		Resolved that: the Committee NOTED the contents of the report.		
17/18-11	Clinical Records	The Committee received the Clinical Records assurance report.		
		A number of positive assurances were highlighted in the report including:		
		<ul> <li>See report</li> <li>KPIs – progress re scanning</li> </ul>		
		Resolved that: the Committee NOTED the contents of the report.		
17/18-12	Data Quality	SR presented the Data Quality assurance report from the meeting held on xxx.		
		<ul> <li>Ethnicity now improving</li> </ul>		
		<ul> <li>Solution re demographics being sought</li> </ul>		
		<ul> <li>Consultant tracking – solution being sought</li> </ul>		
		Resolved that: the Committee NOTED the contents of the report.		
17/18-13	Building Services Team	The IGC received the list of issues currently being addressed by the Building Services Team (BST).		
		<ul> <li>Residual commissioning issues almost to conclusion – follow audit to July</li> </ul>		
		<ul> <li>Red button mechanism worked well for escalating major issues</li> <li>PPMs – schedules still outstanding</li> </ul>		

		<ul> <li>Pressure vessels – ongoing requests to Interserve. XX Agreed to provide.</li> </ul>			
		Resolved that: the Committee NOTED progress to date.			
		Board Assurance Framework (BAF)			
17/18-14	2017/18 BAF	The Committee considered the first BAF Report for 2017/18			
		ES invited committee members to identify any further internal control gaps or assurance. Discussions continue to link to local risk registers.			
		<b>Resolved</b> that: the Committee NOTED the contents of the report.			
Policies &	Equality Analyses to be	Ratified			
17/18-15	<b>Asbestos Policy</b>	Minor changes to reflect move to CHP			
17/18-16	Medical Gas Policy	Minor changes to reflect move to CHP			
17/18-17	Fire	Continually updated to reflect changes in fire procedures			
17/18-18	Diagnostic Testing	No solution in Meditech 6 – are working on a notification system. GDE programme to look at. Departmental procedures in place but overarching policy needed.			
		ES – are sighted on the issue at CQAC and discussed at clinical records cttee, policy therefore welcomed. SI agreed that this would reduce risk			
Any other	Any other business, documentations for information				
17/18-19	Any Other Business	No further business was discussed.

# **Trust Board of Directors**

# 05 September 2017

Subject/Title	Global Digital Excellence (GDE) Programme Update
Paper prepared by	Peter Young, Chief Information Officer Jenny Wood, GDE Programme Manager
Action/Decision required	The Trust Board is asked to note the updated progress towards participation in NHS England's GDE Programme and subsequent initiation of the Programme.
Background papers	N/A
Link to:	IM&CT Strategy
<ul> <li>Trust's Strategic Direction</li> <li>Strategic Objectives</li> </ul>	<ul> <li>Significant contribution to the strategic objectives for:-</li> <li>Clinical Excellence</li> <li>Positive patient experience</li> <li>Improving financial strength</li> <li>World class facility</li> </ul>

Page **1** of **3** 

Page 194 of 207

# Summary of progress in last month

# **Funding**

The Trust received confirmation of the first tranche of PDC funding on Friday 16<sup>th</sup> June (approximately £2.5million), this was received and we were available to drawn down from on the 10<sup>th</sup> July.

The invoice request has been completed for the remaining revenue funding (approx. £800k) will also be made available via the CCG imminently.

## Fast Follower

The Alder Hey *Fast Follower* Trust, Clatterbridge, are currently undergoing 'due diligence' and a site visit has been arranged there for the 20<sup>th</sup> September 2017.

At the next Board update an overview of the Site Visit, copy of the Funding Agreement and Letter of intent will be circulated for formal agreement and sign off

### Programme Assurance

NHS Digital are attending Alder Hey on the morning of the 19<sup>th</sup> September 2017 to complete their first assurance inspection.

Project documentation has been finalised and forwarded to NHS Digital to provide a platform of evidence for the inspection to take place.

There is confidence the second funding milestone will be met.

The final assurance report will be provided to the Board for overview.

## Programme Delivery

Work remains underway in preparations for the achievement of the phase 2 milestones and looking forward to phase 3:-

- Recruitment to all approved posts. It is anticipated the full team will be in place by the end of September.
- Revision of milestones has now been completed to take into account the delays to the funding at national level.
- GDE Benefits Lead is working towards completing the baseline assessment of benefits as a priority.
- Internal organisational engagement work ongoing with good progress.
- Programme documentation finalised for Programme assurance.
- Successful upgrade to Meditech 6.08.
- System development has been completed for two speciality packages, with development commencing/on-going on six "specialty packages"
- A recent "speciality package launch" saw the start of an additional six speciality packages.
- The Voice Recognition project has completed an initial pilot with the Orthopaedic team. General Paediatrics and Nephrology are due to go live on the 30<sup>th</sup> August.

Page **2** of **3** 

Page 195 of 207

- The voice recognition project is on-going. The August rotation of Junior Doctors have been trained alongside thirty three champions
- A significant risk was raised around the lack of a voice recording for the use of voice recognition, this has now been addressed and a voice recording is in place.
- Scoping and development of the Paediatric Portal is underway with a launch being planned for key stakeholders
- IMO Clinical Terminology software implementation underway.

A copy of the GDE Programme Dashboard which summarises the status of all individual workstreams is attached.

# Next Steps

- Continue working towards the delivery of milestones two and three (September 2017 and March 2018) respectively.
- Assurance testing to be completed by NHS Digital around milestone two on the 19<sup>th</sup> September 2017.

# **Recommendation**

The Trust Board is asked to:-

1. Note the progress with the GDE Programme and ongoing work to progress towards the second milestone due on 30<sup>th</sup> September 2017.

Peter Young

**Chief Information Officer** 

22<sup>th</sup> August 2017

# Alder Hey Children's NHS Foundation Trust

#### Research, Education and Innovation Committee Minutes of the meeting held on Thursday 19<sup>th</sup> January 2017, Room 6 Mezzanine, Level 1 Alder Hey Children's NHS Foundation Trust

Present:	Mr Ian Quinlan (Chair) Prof Michael Beresford Ms Louise Dunn Mr Iain Hennessey Prof Matthew Peak Mr David Powell Ms Erica Saunders Mrs Claire Liddy Mrs Melissa Swindell	Non-Executive Director Brough Chair, University of Liverpool Director of Marketing and Communications Director of Innovation Director of Research Development Director Director of Corporate Affairs Acting Director of Finance Director of HR	(IQ) (MB) (LD) (IH) (DP) (ES) (CL) (MS)
In Attendance:	Mr Tim Andrews	External Commercial Advisor	(TA)
	Mr Joe Gibson	External Programme Lead	(JG)
	Mrs Catherine Kilcoyne	Commercial Project Manager	(CK)
	Dr Charlie Orton	Clinical Research Unit Senior Manager	(CO)
	Mr Jason Taylor	Innovation Service General Manager	(JT)
	Mrs Julie Tsao	Committee Administrator	(JT)
Agenda item: 46	Amanda Rees	NIHR Alder Hey CRF Manager	(AR)
51	Katie Cawthorne	Innovation Consultant, Acorn	(KC)
Apologies:	Miss Abbey Gore	Innovation Coordinator	(AG)
	Mr Rafael Guerrero	Consultant Cardiac Services	(RG)
	Sir David Henshaw	Chairman	(DH)
	Mr G Lamont	Director of Medical Education	(GL)
	Mrs Janette Richardson	Programme Manager	(JR)
	Mr Rick Turnock	Medical Director	(RT)

# 16/17/42Declarations of Interest

No declarations were declared.

# 16/17/43 Minutes of the previous meeting held on Thursday 11<sup>th</sup> November 2017 Resolved:

Subject to a number of amendments on page 1 and page 2 the minutes were approved.

# 16/17/44 Matters Arising

All items for discussion were listed on the agenda.

#### 16/17/45 Committee Work-plan Resolved: REIC approved the work-plan for 2017/18.

#### 16/17/46 Programme Assurance - Research, Education and Innovation Resolved: The programme assurance for RE&I project was presented. Joe Gibson and Claire Liddy agreed to ensure that the Research, Education and Innovation work stream was identified in the FY17/18 CIP programme.

#### 16/17/47 Board Assurance Framework

Research, Education and Innovation Committee 19<sup>th</sup> January 2017 Minutes

Page 202 of 207

#### **Resolved:**

REIC reviewed the BAF and agreed to contact Erica Saunders with comments.

#### 16/17/48 Research Business Model and Commercial Research

- **Clinical Research Facility: Business Case for Sustainability and Growth** Matthew Peak presented a summary of the Integrated Research Strategy for Child Health which was agreed at the Trust Board in September 2015. This included the fundamental principles for a research business model, including:
- 1. The model is not based on overhead charges directly proportionate to the cost base which currently serves to linearly increase the overhead deficit.
- 2. The model takes account of the cost neutral position with respect to non-commercial research.
- 3. The model allows for re-investment of a proportion of research income into capacity building and essential infrastructure posts.
- 4. The model enables incentivisation for investigators and support services to deliver commercial contract research.
- 5. The model enables a contribution to Trust overheads which has a relationship to overall research income, but not necessarily in direct proportion to it, whilst allowing re-investment in research annually.

Michael Beresford presented the renewal award (£2m over 5 years, compared to £2m over 4.5 years currently) for the NIHR Alder Hey Clinical Research Facility for Experimental Medicine from April 2017 - March 2022. This is conditional by NIHR that the budget shifts from resources supporting trial delivery to resources supporting research growth, in particular, new, joint appointments with the CRF at the Royal to achieve this. This requires some existing CRF posts funded by NIHR (until March 2017) being funded through alternative sources or staff redeployed or made redundant (which would impact significantly and detrimentally on the Trust's current research activity and commercial income). There is still a requirement to fund delivery staff to implement the CRF strategy agreed with NIHR, and the expectation from NIHR is that CRF delivery staff are funded through income associated with the delivery of clinical trials.

A detailed business plan was presented which described a construct which allowed maintenance of the current Clinical Research Business Unit (CRBU) annual contribution, a cost pressure of £115k p.a. to support CRF delivery staff, and a distribution model for surplus commercial research income (as defined by NIHR) going forward. Models, based on different rates of recruitment into commercial trials, were presented and quantified (using externally validated financial constructs) with respect to meeting the cost pressure and future income distribution.

The specific features are:

- Over the next five years, the CRBU annual contribution remains at £477k
- Any in-year income in excess of £477k will contribute to meeting the £115k cost pressure each year between 2017-2022
- Any surplus income over and above the annual contribution and annual CRF cost pressure will be redistributed each year in line with the NIHR costing template as follows:
  - 'Base costs' (a nominal '100 units') per delivery requirements for PI, study support, nurse and key delivery services distributed accordingly to Clinical Business Units (including CRBU) – 53%
  - CIP (a nominal '70 units') 36%
  - Capacity Building (a nominal '20 units', for delivering research strategy) 11%

Research, Education and Innovation Committee 19<sup>th</sup> January 2017 Minutes Page 2 of 5

It was noted that surplus income is the only source of CIP from the CRBU.

#### **Resolved:**

The agreed approach was to support the NIHR Alder Hey CRF strategy based on sustainability as well as growth, as per submitted budget, and agreement that support for the CRF was a key priority in order to deliver the Trust's Research ambitions to be word leading in better, safer medicines for children, as well as the Trust's commercial (and non-commercial) research goals.

Charlie Orton presented a strategy for increasing contract commercial research studies and associated income.

#### **Resolved:**

A number of options were presented specifically with respect to the CRF sustainability and growth model. Options 2 and 3 in the business case paper were the only options which do not result in the NIHR CRF award being rejected and/or current CRF staff being redeployed or contracts terminated. Professor Beresford (CRF Clinical Director) affirmed that any other option would result in the Trust having to decline the NIHR CRF award, as it would be impossible to deliver NIHR's expectations of the award.

The preferred option (Option 3) involved taking forward £115k of surplus from 2016/17 into 2017/18 thereby removing the cost pressure for the CRF in its first year of the new NIHR contract. In order to support the Trust in meeting its controls target for 2016/17, the CRBU team withdrew this option.

Option 2 was supported and agreed. This will require a minimum  $\pounds 578k$  ( $\pounds 115k$  p.a.) over the lifetime of the NIHR CRF award (above a recurrent, stable contribution of  $\pounds 477k$ ) to be generated and prioritised to provide sustainability, and implementation of the revised distribution model (in line with CRN costing template, and as outlined above) for, and only when there is, any surplus income over and above this threshold. This option includes the specific features outlined above.

#### 16/17/49 Standard Operating Procedure (SOP)

Jason Taylor gave a presentation on a SOP for overseas partnerships. A review of company characteristics was to take place before agreement of partnership working. The Department of International trade guidance had also been adopted by the Trust.

#### **Resolved:**

REIC received the SOP on overseas partnerships noting agreement of a case by case approach.

#### 16/17/50 Alder Hey Innovation Enterprise

The Innovation Team at Alder Hey has been established for over 2 years and has operated as a virtual business unit within the Development Directorate during that period with financial support being provided by the Trust and the Charity during this initial phase.

Going forward Innovation Company are to develop partnerships in 3D printing and sensor equipment. Meetings are to take place with investors and charities to support projects.

REIC requested for the Business Case to be presented once completed.

#### **Resolved:**

Research, Education and Innovation Committee 19<sup>th</sup> January 2017 Minutes Page 3 of 5

Alder Hey Children's NHS Foundation Trust

REIC received an update on Innovation Company.

#### 16/17/51 The Apps Hopper-Acorn

Katie Cawthorne from Acorn reported on the partnership with Alder Hey to solve issues faced by NHS Trust's. 8 projects were currently in place and an update was given on Fresh Air and Hours.

Fresh Air is a mobile application developed by the Children's and Adolescent Mental Health group to provide support to teenagers with mental health anxieties. The application is due to be trailed in schools in March 2017. Matthew Peak provided contacts for Katie so trails could also be carried out at Alder Hey.

h:ours is an application developed for use by Junior Doctors to log their time at work.

Going forward included recruiting more entrepreneurs and getting products to buyers.

#### **Resolved:**

REIC received an update on the Apps Hopper-Acorn.

#### 16/17/52 European Regional Development Fund (ERDF) Bid

The Liverpool City Region Health Enterprise Hub funded by ERDF to develop innovative products and services was in progress.

#### **Resolved:**

An update on the ERDF Bid was received.

#### 16/17/53 Virtual World

#### Resolved:

REIC received a verbal update on developing a virtual walkthrough of a patient's journey using engineering technologies used at Bentley.

#### 16/17/54 Digital Application

The Digital App funded by the charity will enhance the way Alder Hey communicates with children and young people who are accessing services at the hospital. The main areas of focus will be familiarisation, reward and distraction.

#### **Resolved:**

REIC received an update on the digital app.

#### 16/17/55 Artificial Intelligence

Iain Hennessey is working with the Hartree Centre and IBM to explore applications of Artificial Intelligence in the NHS. Initially this will be related to the use of natural language processing for the Digital Hospital app and then will extend to other areas.

#### **Resolved:**

Update received.

#### 16/17/56 University of Liverpool Strategic Partnership

A partnership between Alder Hey and University of Liverpool had been agreed. Once there had been further progress an update would be received.

#### **Resolved:**

REIC received notification of a partnership between Alder Hey and University of Liverpool.

Research, Education and Innovation Committee 19<sup>th</sup> January 2017 Minutes Page 4 of 5

#### 16/17/57 Alder Hey Academy

The Alder Hey Academy had been developed to offer accreditations and apprenticeships in partnership with local provides. The draft Business Case was due to be presented at the Executive Committee.

#### **Resolved:**

REIC received an update on the Alder Hey Academy.

16/17/58Any Other BusinessNo other business was reported.

#### Date and Time of next meeting: Thursday 23<sup>rd</sup> March 2017, 1300, Room 7, Level 1 Mezzanine, Alder Hey Children's NHS FT.

NB: Date changed to: Thursday 6<sup>th</sup> April, 1300, Room 8, Level 1 Mezzanine, Alder Hey Children's NHS FT.
