Subject: The Trust's Welcome to the Hospital leaflet for paediatric patients

Q1 Has your Trust produced a Welcome to the Hospital leaflet for your paediatric patients and their parents? A leaflet that provides clinical and/or non-clinical information that you think patients/parents need to know during their hospital stay.

A1 Information not held – the Trust does not have a welcome to the hospital leaflet, we do have booklets on each ward, and we have a family support service where the volunteers speak to newly admitted families.

Q2 If yes, can you send me an electronic copy.

A2 Information not held – as per A1
