**From:** Private Individual  
**Date:** 26 February 2024  
**Subject:** net zero and decarbonisation targets progress

Q1 The NHS in England has set targets to reach net zero by 2040 for direct emissions. Does your organisation have a clear roadmap of how you're going to reach this target?

- Yes
- No
- I don't know

A1 Yes. We have a green plan.

Q2 What significant changes have you made – if any – since this goal was set in 2020? Select all that apply:

- Upgraded our building systems
- Adopted technology to monitor and optimise energy use
- Digitised electrical infrastructure and energy sources
- Invested in renewable technologies
- Implemented circular business practices
- Other: please state

A2 Optimised existing buildings to improve energy efficiency.

Q3 Does your organisation currently measure its total carbon footprint?

- Yes
- No
- I don't know

A3 Yes we measure our NHS Footprint. We are working on measuring Footprint plus.

Q4 Has your organisation received funding to spend on decarbonisation?

- Yes
- No
- I don't know

A4 No

Q5 If yes, where has this funding been spent?

- Upgrading heating, lighting and ventilation
- Installing solar panels or other forms of renewable energy
- Carbon capture and storage solutions
- Energy-efficient technologies and equipment such as LED lighting, HVAC systems
- Training and awareness programmes
- Other: please state

A5 Not applicable as per A4

Q6 What percentage of your energy consumption from fossil fuels?

- 0-10%
- 11-20%
- 21-30%
- 31-40%
- 41-50%
- 51-60%
- 61-70%
- 71-80%
- 81-90%
- 91-100%

A6 50-60% of our energy use is gas. The rest is grid average electricity.
